

# WE ARE LOOKING FOR OLDER ADULTS AND FAMILY MEMBERS FOR INTERVIEWS

Join us in developing services that support living at home!

The Western Uusimaa Wellbeing Services County is looking for older adults and family members to participate in interviews to help develop home-support services and digital services (Lunna). We are especially seeking people with experience in services that support living at home, such as meal services, cleaning services, safety services or home care.

## **We are looking for:**

- 6–10 older adults
- 6–10 family members (especially those acting on someone's behalf)

Previous experience with Lunna is not required – the most important thing is an interest in using digital services.

## **Interviews:**

- Duration approximately 1 hour
- Teams remote interview during February–March
- Possibility for individual, pair or group interview
- All responses will be handled anonymously

## **Information needed from participants:**

- Email and/or phone number
- Whether the participant is an older adult or a family member
- Preferred language
- Municipality of residence
- Preferred interview format (individual, pair or group)

Sign up by the end of February.
