

Learning for Integration ry:

Language through Play

Tools for Teachers and Language Activities

We offer a full-day (6h) or half-day (4h) workshop for language teachers and trainers in using online tools for teachers for material creation, as well as different ideas on how to run flashcard, role-play and debate activities in the classroom using this material. There are numerous useful resources online for creating fun material and flashcards, and we will teach you how to do this step-by-step, along with fun activities for engaging your students! We offer workshops in Finnish, Swedish and English. Workshops can be organized on your school premises.
