## Dane launches street magazine to help drug users fund their habit

Social entrepreneur Michael Lodberg Olsen challenges authorities in Denmark with project to give users 'dignity'

by **Daniel Boffey** policy editor  
The Observer, Sunday 8 September 2013

Michael Lodberg Olsen has previously set up a mobile injection room to increase safety for addicts. Photograph: Arkivfoto

The liberal attitude of Danish authorities to drugs is being tested this weekend, with addicts taking to the streets of Copenhagen to sell a new *Big Issue*-style magazine with the explicit aim of funding their addictions.

Five thousand copies of the magazine, with a cover price of 30 krone (£3.40), are being sold on street corners by drug users. Each addict will keep 20 krone to fund drug buying, according to the publishers of the magazine, which is to be sold under the title *Illegal*. If successful, the publishers say they plan to bring the magazine to the streets of London.

لإبعادهم عن الجريمة  
مجلة دنماركية توظف مدمني المخدرات

عضو بالفرقة المحلة من المدمنين على المخدرات (أ ف ب)

24 - أ ف ب

توظف مجلة "البغل" الدنماركية مدمني مخدرات، بغية مساعدتهم على شراء المخدرات وإبعادهم عن أوساط الدعارة والجريمة، ما أدى إلى تضاعف مبيعاتها منذ إطلاقها في الحريف الماضي.

وأطلقت البغل في سبتمبر (أيلول) 2013 في كوبنهاغن، من قبل مايكل لودبرغ أولسن وهو عامل اجتماعي لا يفتى عليه أن يفتي صحيفته يستخدمون رواتبهم لشراء المخدرات.

هدف المجلة

والغدت هذه المجلة بحسب مديرتها "هدفان أولهما نوع الصلة الإجرامية عن مدمني المخدرات، وثانيهما منحهم فرص عمل كي لا يفتروا في دوامة الجريمة والدعارة".

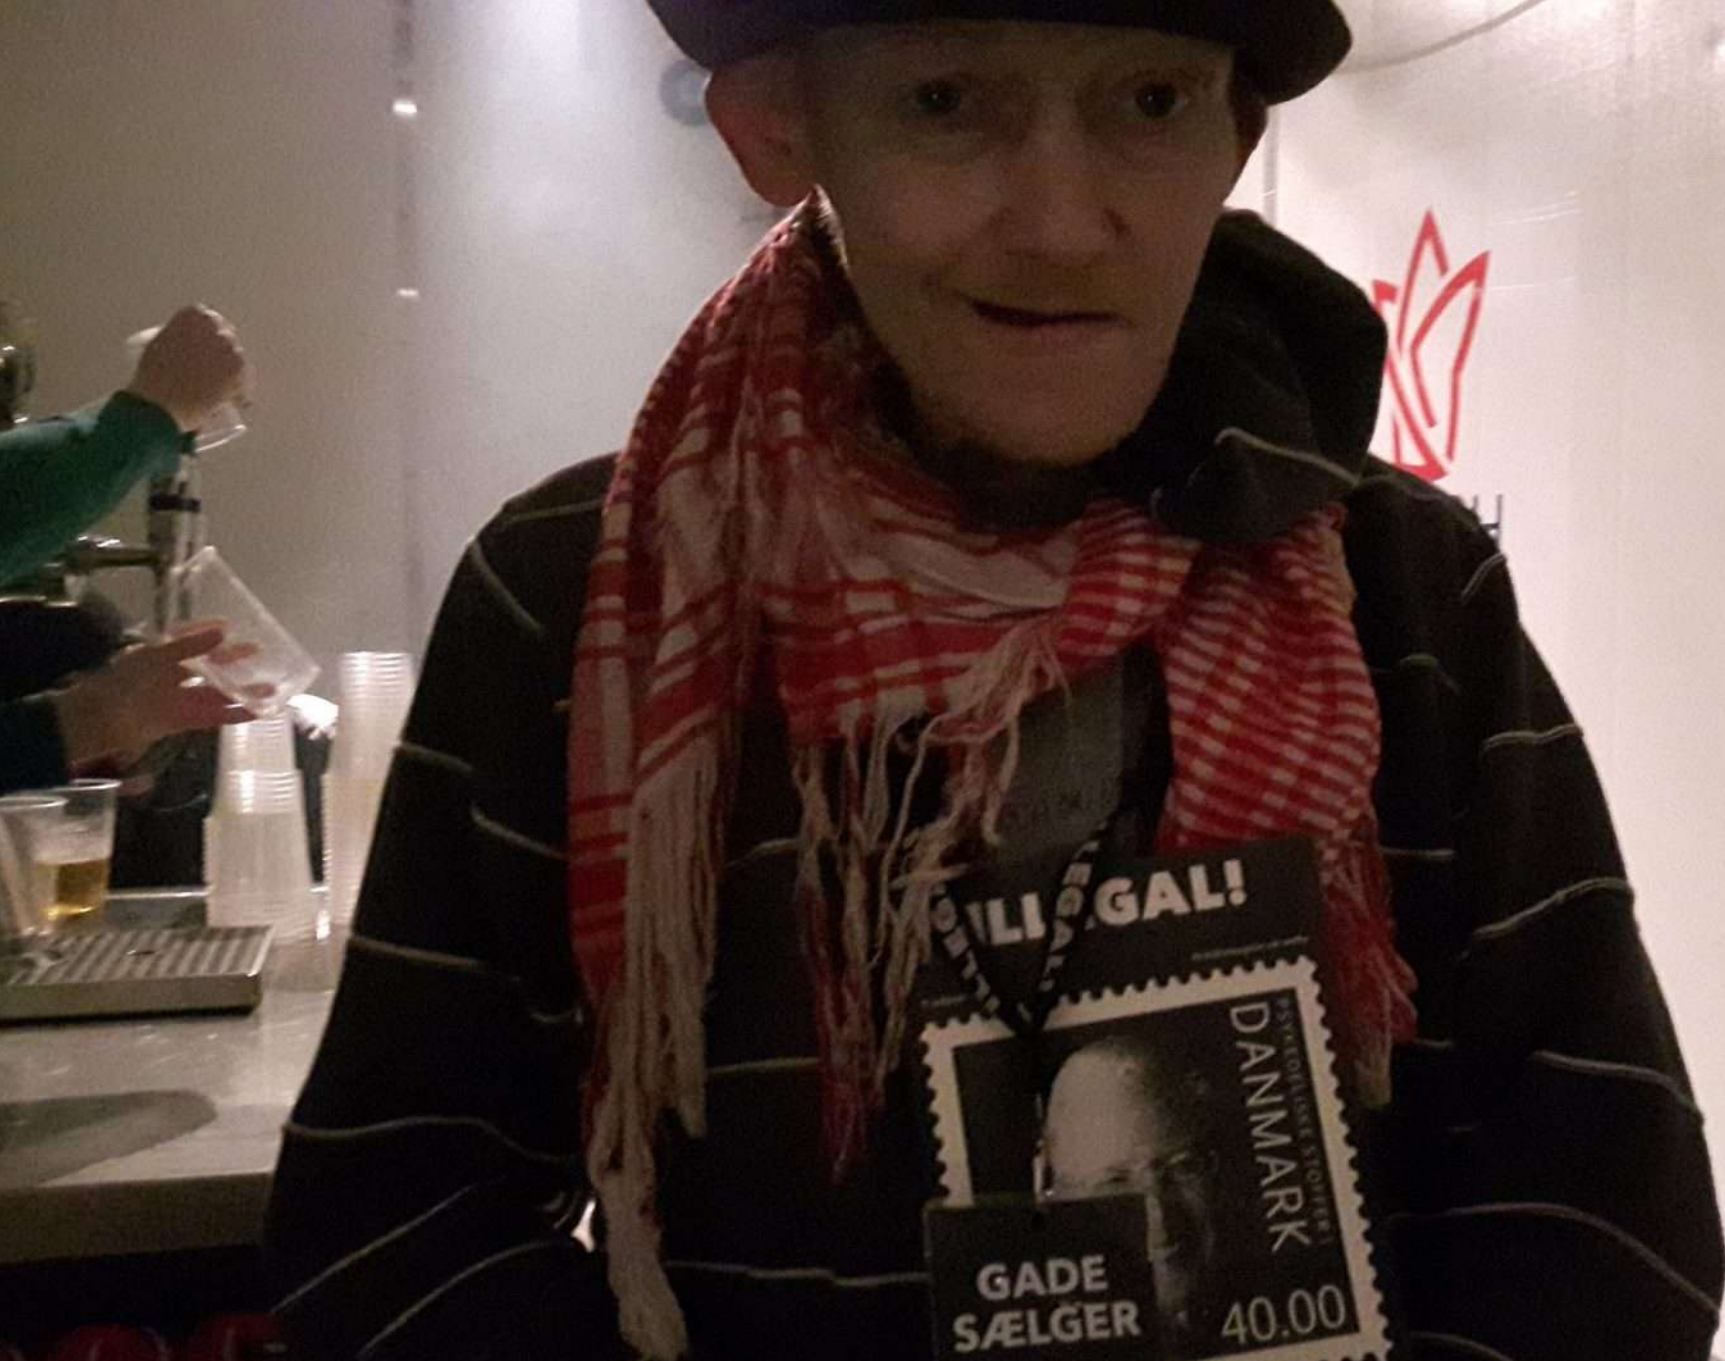

ويقوم صحفيون محترفون بإعداد محتويات المجلة، التي تصدرت مرات في السنة ولا تنطرق إلا إلى الدواخل الباطنة بالمخدرات، وفي تلك الحالات التي تطرق إليها المدمنين، يطالبون بزيادة

# Beboere fik fixerum forbudt

**Beboerklager fik i går fogedretten til at nedlægge forbud mod et privat fixerum, der var planlagt på Vesterbro i København.**

AF **ESBEN SCHOUBOE**

■ Fogedretten nedlagde i går forbud mod et privat fixerum, som efter planen skulle være åbnet i dag i en kælder på Vesterbro i København.

»Jeg er selvfølgelig skuffet,« siger **MICHAEL LODBERG OLSEN**, som sammen

hedsfagligt personale,« siger Carsten Mai. **ESBEN HOUBORG**, som er lektor ved Center for Rusmiddelforskning, mener fixerum er gode, hvis man gennem det offentlige kan få tilknyttet læger og sygeplejersker.

»Et fixerum er en fordel for stofmisbrugere. I stedet for at sidde i rendestenen og være stresset når du skal tage dine stoffer, kan du sidde i fred og ro og få hjælp af sundhedsfagligt personale,« siger han.

**’Det er et forsøg værd’**

Esben Houborg mener, at man generelt bør

er blevet forbudt på Vesterbro.

»Det, vi gerne vil, er at lave et offentligt fixerum, hvor man kan mere end bare indtage stoffer. Der skal være sundhedspersonale, socialarbejdere og mulighed for at få sengepladser og eventuelt begynde en behandling,« siger Mikkel Warming.

**Stiller forslag om fixerum hvert år**

Han lover, at det vil ændre sig, hvis oppositionen kommer i regering efter valget.

»Hele oppositionen er enige om det her og har stillet forslag til Folketinget hvert år de sidste mange år. Hver gang bliver det stemt

# Opioids

## WHAT ARE OPIOIDS?

Opioids are natural or synthetic drugs working on opioid receptors. Opioids attach to receptors in the central nervous system, reducing pain signals to the brain. Commonly used opioids include morphine, heroin, methadone, fentanyl, oxycodone, codeine, buprenorphine and opium.

## SIGNS OF HAVING TOO MUCH (OVERDOSE)

- Drowsiness/somnolence
- Unresponsiveness
- None or abnormal breathing (ie. snoring or gurgling)
- Pale skin
- Blue/grey lips or finger tips

## HOW TO RESPOND

1. Check for dangers to own safety
2. Check for awareness
3. Check for breathing
4. Call 1-1-2
5. Provide first aid/CPR if none or abnormal breathing
6. Use the antidote Naloxone if available
7. Stay until emergency response arrives

# Safe Injection Facility

4 steps guide to a D.I.Y. Safe Injection Facility

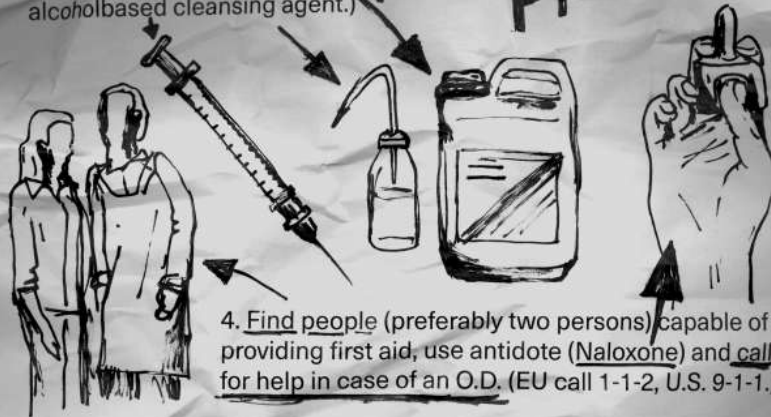

1. Find a clean and closable space.  
(A room/car/tent etc.)

2. Place a table and chairs that are easily cleanable.

3. Place tools for injection.  
(Clean syringes and needles,  
cookware, sterile water and  
alcoholbased cleansing agent.)

4. Find people (preferably two persons) capable of  
providing first aid, use antidote (Naloxone) and call  
for help in case of an O.D. (EU call 1-1-2, U.S. 9-1-1.)
