

Life-work balance & safety

Safety

- Less homeless people because of kela
- Whats kela? it gives free money to the old, students and small income people.
- Finnish people trust authorities (police exc.) so it gives the feeling of safety. That decreases crime.

Life-work balance

- -Workers are protected by the law (Working hours, breaks , working conditions exc.)
- -around 40 % of working people feel that its hard to find balance between work and life
- However Finland is still ahead of most countries
