

Hello!

You have registered to Rauman Taitoluistelijat Länsi-Suomi ice skating school! First lesson is on this Sunday the 5th of September from 11am to 11.45am. Find some important info below.

Entrance is from the right side of Kivikylän Areena from the "pukuhuoneet"-door.

For the safety reasons, every child should wear a helmet and gloves on ice. **Mark your child's helmet with their age and first name i.e using tape.** This helps the coaches to divide the children in right groups and learn their names. The best clothing for skating are warm and elastic.

Because of the pandemic situation, we recommend all the adults to wear a mask inside the ice hall. And to dress up your child as ready as possible at home, to avoid crowd in the dressing room.

All the groups will go on ice from different gates.

- 3-4 years old enter through corner gate on the dressing room side
- Adult&Child group enter through bench.
- 5-6 years old enter through the gate next to ice resurfacer near the Lukko's dressing rooms, pass the bench.

Guardians will escort the children to the gates where the coaches are waiting. The coaches also bring the children back to these gates after the lessons. The guardians can stay and follow the lessons from the stand- remember the safety distances.

In the first lesson we will get to know the group, get familiar with the ice, practise basic skating skills and play lot of different kind of skating games!

Welcome!
