

THE OLD FOX CLUB MEMBERS UNDERSTAND THE TRAPS

By Glass Innovation Institute

Our Vision

The Old Fox Club will become the leading knowledge-sharing network for the whole glass value chain

It is connecting senior glass experts, retired specialists and designers with young professionals, startups, universities and students.

GII

An independent non-profit organization promoting knowledge and quiet information transfer to the new generations by providing an open mentoring platform

Brainstorming along with the older and the younger generation to share glass-related expertise.

We want to develop cooperation between different conferences and glass events.

Connecting Generations

Young people's innovations / new revolutionary ideas / start-ups need to be better highlighted. The Old Fox Club members' knowledges and connections can support to work on suggestions and improvements.

Young people also need to be encouraged to come up with new ideas for developing the glass industry. At the same time, Club members strive to take young people's ideas forward and help protect those ideas.

We must solve the challenges of the future together, e.g.: energy efficiency, circular economy, digitalization, developing the energy self-sufficiency of buildings.

Member's Benefits

- Our industry, your business, our future, they all depend on connections
- You can get to know the world's top specialists and influence the future
- Connect yourself to the world's leading network
- Your valuable information can be utilized
- Recognized as the world's top expert
- Someone needs your expertise

Member's Benefits

- Help start-ups and benefit yourself
- New freedom to develop your hidden ideas
- Encourage young people to come up with new ideas
- After retirement, you can still be active together with the leading experts
- Give consultancy through your own company and get backups from the members
- Leave your name in the history of the glass industry by sharing your own branded/labelled materials

What do we expect from the members?

- Contribution to the material bank:

Some of your own ready-made or new (non-commercial) technical articles and ppt presentations/papers/videos/animations/pictures etc.

- Give one presentation voluntarily in educational events (on-line or off-line) arranged by the club (in the case off-line, travel expenses will be covered)
- Help to get business partners to sponsor and support the development of GII (especially when we apply for EU funding)
- Do some marketing activities and find new members to the club
- Ideas for a virtual training program
