

# Keep precious building glass in the loop!

Start making sense

Safe our Glass

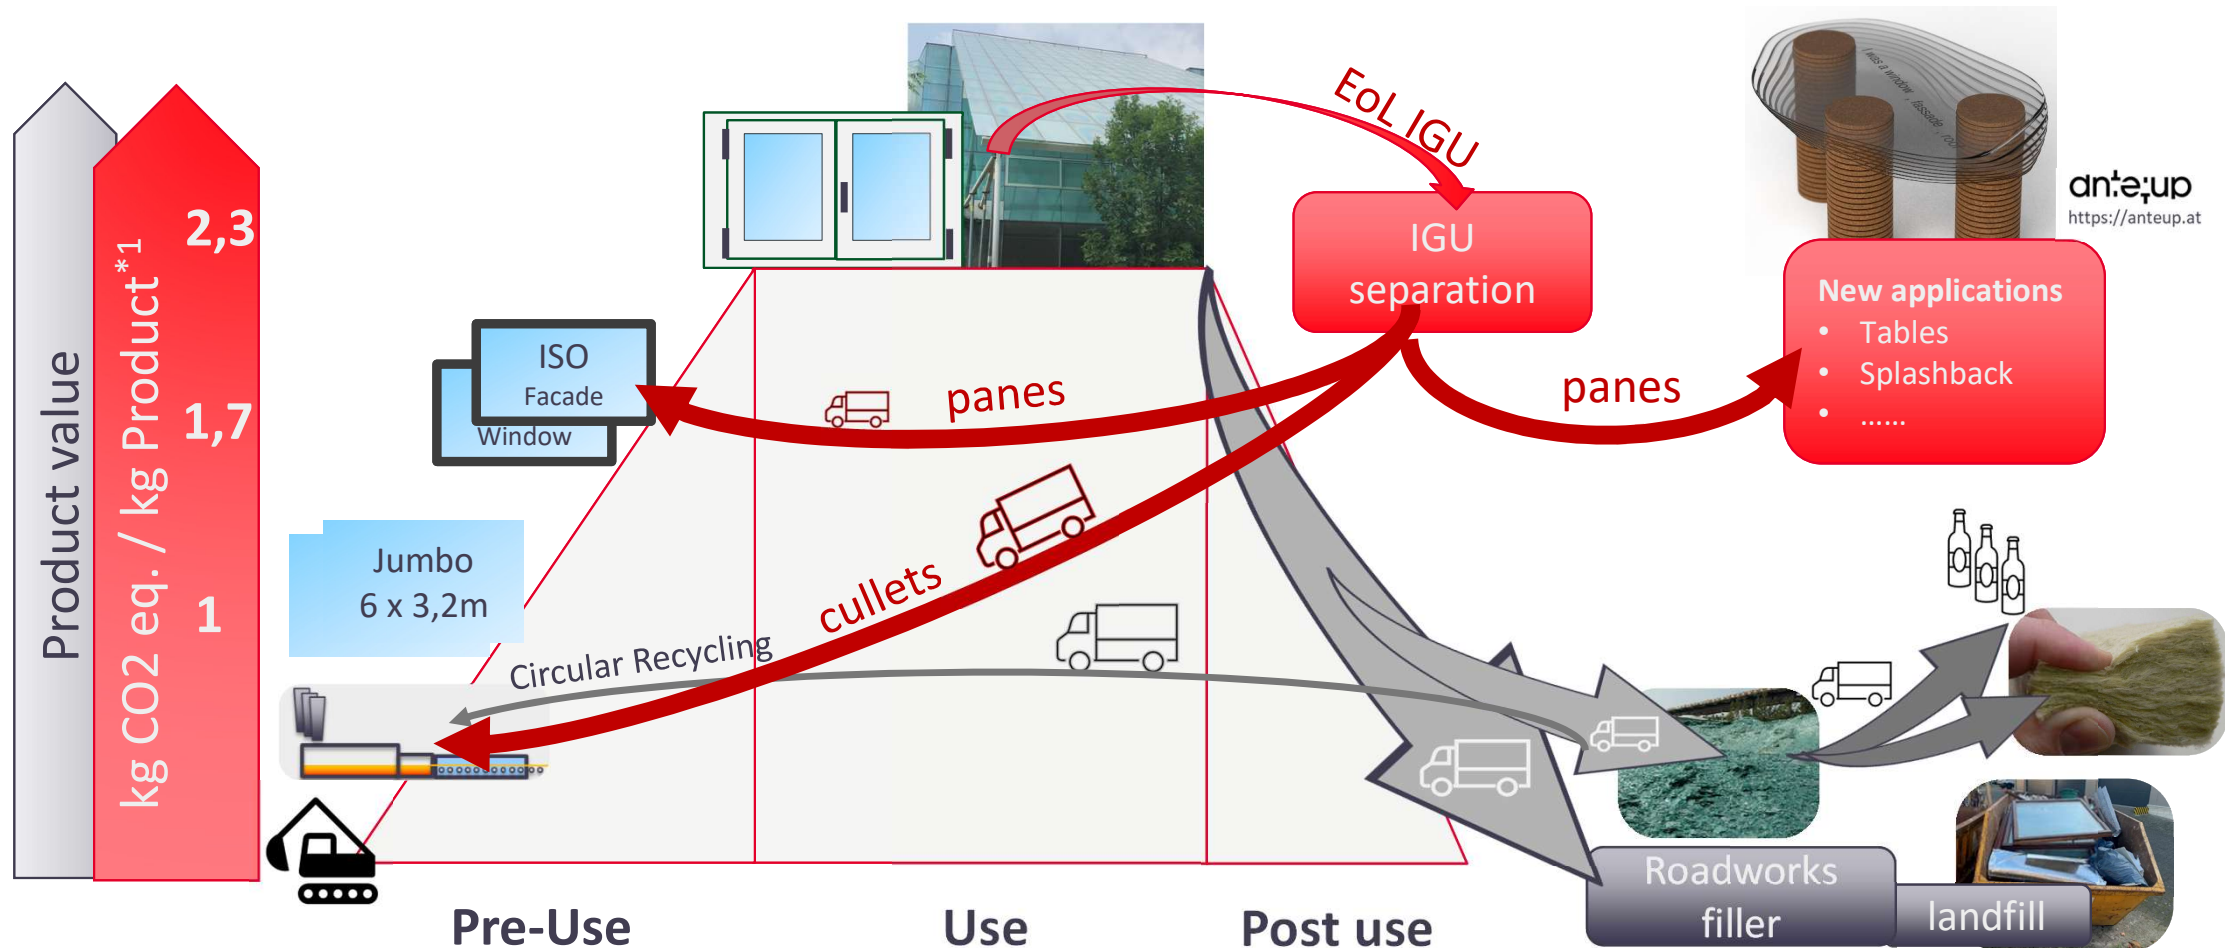

Stop degradation & waste

10 Rules of Circularity

# Motivation

## Why and what we do with End of Life IGUs

We develop the technology to establish circularity for IGU / construction glass

How we open End of Life IGUs:

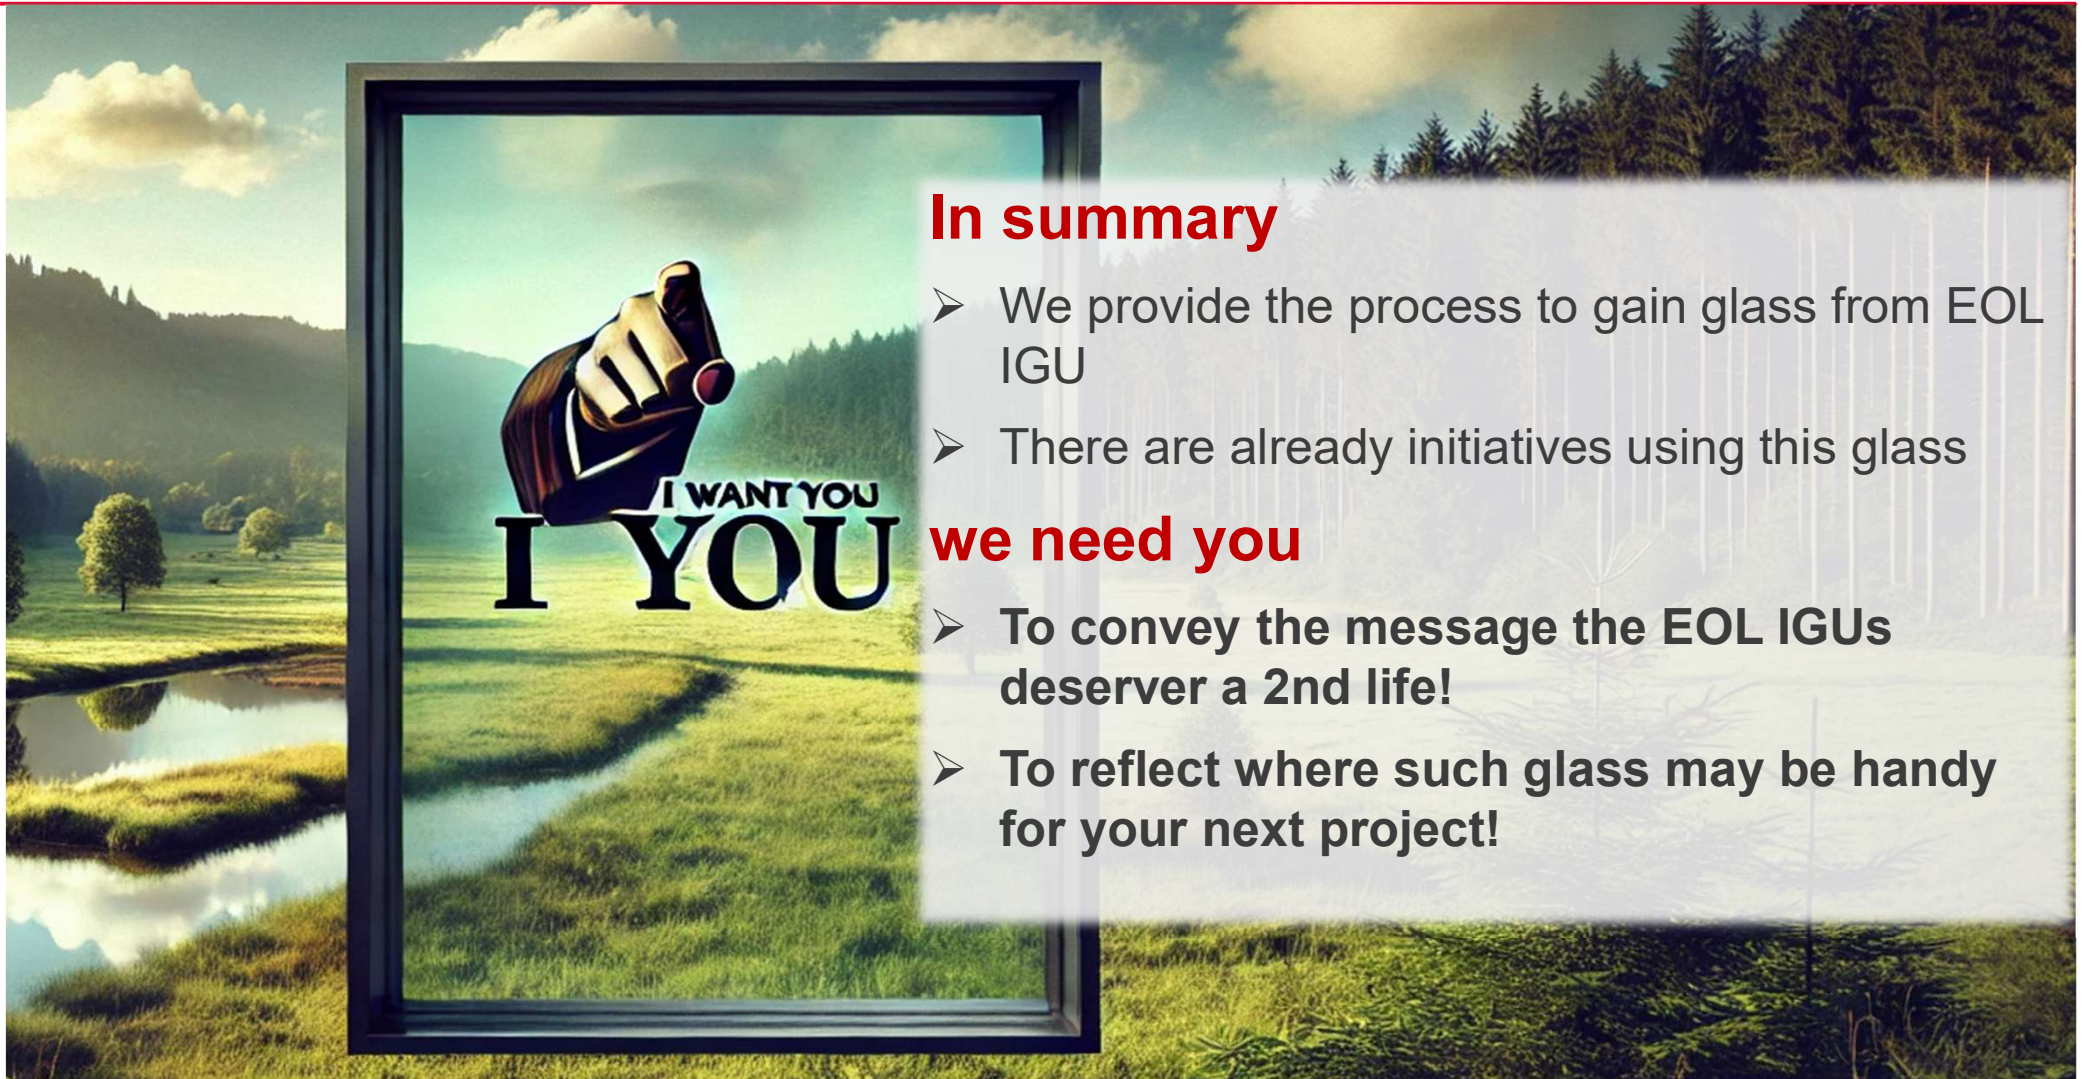

Automated opening

Manual opening

## Circular IGU / Construction Glass Take away

The image is a composite. On the left, a black rectangular frame is superimposed over a scenic landscape of a green valley, a river, and distant mountains under a cloudy sky. Inside the frame, a 3D-rendered hand in a brown suit jacket points its index finger towards the right. Below the hand, the text 'I WANT YOU' is written in a small, white, sans-serif font. Below that, the words 'I YOU' are written in a large, bold, black, serif font, with the 'I' and 'YOU' being significantly larger than the words above them.

**In summary**

- We provide the process to gain glass from EOL IGU
- There are already initiatives using this glass

**we need you**

- To convey the message the EOL IGUs deserve a 2nd life!
- To reflect where such glass may be handy for your next project!
