

Certification of field personnel

Certification of field personnel improves quality of environmental research

Infra
gallery

Persons working in the field can show their competence by person certification using this accredited scheme ([S022](#)).

This national certification system is a widely acknowledged quality assurance procedure in Finland today.

- The certification scheme assure that sampling personnel have enough experience and expertise to do their job well even under difficult circumstances.
- This scheme is based on the international standard ISO 17024.
- [Eight fields of expertise](#) are available according to field matrices.
- See detailed information on website (in Finnish): www.syke.fi/sertifiointi
- See [list of certified persons in Finland](#)
- Contact us:
 - Secretary the Certification Body: Jaana Heiskanen (firstname.a.lastname@syke.fi)
 - Manager of the Certification Body: Katarina Björklöf (firstname.lastname@syke.fi)
