OpenEdge Mission

To simplify the development and delivery of mission critical business applications.

To deliver products that are highly innovative, easy to use and rapidly implemented.

**To enable OpenEdge customers and partners to prosper in the digital economy.**

Powerful

OpenEdge 12 delivers up to 200% improvement in database throughput performance for unprecedented responsiveness and scalability. Built for speed, OpenEdge 12 is the foundation for future application evolution, delivering apps that are more responsive, more available and more performant than ever before.

Progress®

Available

Nine Steps Closer to Five 9's

OpenEdge 12.0 delivers improvements, at least nine of them, that reduce maintenance downtime, speed error detection and resolution, and practically eliminate the possibility of data loss in the event of unexpected downtime.

VSTs Updatable on Replication Target — 7

Improved Error Messaging — 8

PASOE Health Scanner — 9

Code Quality Checks — 1

Replication AI File Streaming — 5

Sequences Replicated Without Restart — 6

Instrumentation - Free Performance Profiling — 2

Replication Transition Control — 4

Online Database Maintenance via SQL — 3

Exceptional

Evolve, thrive, and compete

You can trust that OpenEdge 12 makes it even easier for your apps to keep pace.
