Definitive Surgical Trauma Care (DSTC) and Definitive Anaesthesiological Trauma Care (DATC) course

Definitive Surgical Trauma Care (DSTC) and Definitive Anaesthesiological Trauma Care (DATC) course is organized in Kuopio, Finland 12. – 14.12.2023 by the Finnish Trauma Association under the licence of **International Association for Trauma and Intensive Care (IATSIC)**.

The course contains both lectures and operational ‘hands on’ sessions running over 3 days. The DSTC + DATC is designed to teach surgeons and anaesthesiologists strategic thinking and decision making in the management of severely injured patients and provide them with practical surgical skills to manage major organ injuries.

The course faculty consists of both internationally and nationally recognized traumasurgeons and anaesthesiologists. Course language is English.

Course fee is 1850 e + VAT 24% including teaching, course material and manual, meals and coffee mentioned in course program and a course dinner. Course fee does not include accommodation and travel costs to the course venue.

Participants are limited to 16 surgeons and four anesthesiologists. **If you are interested in joining the course, pls. send your free application containing information on: name, area of medical specialty (i.e. ane / surg), experience (i.e. “third year resident”, consultant, etc.), and name of the hospital you are working in, to Mrs. Minna Mononen (minna.m.mononen@siunsote.fi).**

The deadline for applications is May 1, 2023. The applicants accepted for the course will be informed by May 14, 2023. The course fee payment must be done after acceptance no later than June 11, 2023.

Welcome to the course!
