# BACKGROUND & CONTEXT

The Alliance's partner associations and the Compagnons Bâisseurs Occitanie (CBO)'s local partners organize many forms of intercultural collective projects aimed at young people.

The main objective of the project will be to participate to an international workcamp helping local people to renovate their neighborhood and create furnitures for public space.

A specific focus will be on the environment and sustainability with the building techniques but also with specific workshops on the thematic, as well as local citizenship allowing the participants to reflect upon their role as actors of their communities.

We wish more specifically:

- to think about and live the notion of solidarity, interculturality and living together
  - to practise together a solidarity activity which is useful for the local community and carrying social cohesion
  - to deepen the knowledge on partner countries and culture of each participant.
- The youth exchange will be based on methods and tools of non formal education.

# PRESENTATION

## Overview

The project **Building our Green Future**, coordinated by Compagnons Bâisseurs Occitanie (CBO), is an international youth exchange that will take place from **July 7th to July 29th 2026 in Narbonne, France.**

For **21 days**, the project will bring together **30 participants** from 6 countries (*France, Estonia, Finland, Greece, Spain and Ukraine*)

## Activities

This project will take the form of an **international workcamp** aimed at supporting local residents by:

- **renovating a neighbourhood,**
- **building furniture for public spaces,**
- **taking part in educational, intercultural and environmental activities.**

The project will place a strong focus on environmental sustainability and local citizenship, combining practical work, workshops and collective reflection.

# ACTIVITIES

1 Intercultural & learning activities

2 Renovation & practical work

3 Community living & daily tasks

4 Visits & cultural outings

1

Workshops, games and non-formal education activities.

2

Participating in small renovation and improvement projects with local partners.

3

Taking part in daily life: cooking, cleaning and helping organise the project.

4

Discovering the region through visits, cultural activities and a trip to the sea.

### SOLIDARITY

You want to take action  
and connect with others?

### SKILLS

You want to learn by doing  
and grow your skills?

### INTERCULTURAL

You want to share, discover,  
and live intercultural  
moments?

### ENVIRONMENTAL

You want to explore  
sustainable practices and  
care for the planet?
