WHO ARE WE?

Youth for Equality is an organisation, founded in Slovakia in 2016 as a local youth initiative with the aim to realise positive changes and develop activities on a local and international levels in the field of education, human rights, and ecology for the current requirements of the Labour market.

Since its establishment, the organisation has become a pool of young professionals who provide guidance and organise teaching activities in order to provide youngsters with soft skills, and knowledge about different educational and career opportunities at local, national, and international levels.

Youth for Equality carries out a program to acquire soft skills through non-formal learning such as discussions, debates, group work, and brainstorming.

From the topics of internal motivation and creativity, we go through leadership, teamwork, communication, marketing, work, and educational opportunities, all the way to the creation of a business plan or community projects. During these workshops, we implement new trends in the labor market.
