International Workcamps Program
“A moving world”
@ITALY

About us:

Lunaria is a *nonprofit association for social promotion*, secular, independent and autonomous from political parties, established in 1992.

It promotes peace, social and economic justice, equality and ensures the rights of citizenship, democracy and grassroots participation, social inclusion and intercultural dialogue.

Lunaria practices and promotes processes of social change locally, nationally and internationally through advocacy, political and cultural animation, communication, non-formal education, training and research, information and awareness campaigns and the networking.

Mobility and international volunteering, youth policy, migration and the fight against racism, public policy analysis budgetary, economic and social sustainable development, fight against inequality, are at the center of its social commitment.

Every year, Lunaria involves around 1000 young volunteers in its programmes, including workcamps, youth exchanges, medium and long term volunteering. This is possible thanks to the collaboration with the organizations of the Alliance of the European Voluntary Service Organizations and to the Italian network coordinated by Lunaria, where local groups, associations, cooperatives and municipalities can plan and implement international voluntary services projects.

“We ask the international volunteers to commit themselves in the mission of the hosting projects, having an **open mind**, and arriving aware that the accommodation conditions may not be suitable for those looking for cheap and comfortable holidays. Every project is made by many factors, and we need from the volunteers a problem-solving approach.”

The workcamp is coordinated by an experienced volunteer, who is not the boss of the camp: we ask the camp-coordinators to ease the first days of the camp and to involve the volunteers in being responsible for the project, using consensus methodology. The camp-coordinator is not at all responsible for volunteers' fun and the best camp has a camp-coordinator who slightly goes back to the status of normal volunteer.....So, prepare to take responsibilities!

WORKCAMP SHORT DESCRIPTIONS

**LUNAR01 "Cleaning the coast of Giglio", Isola del Giglio (Tuscany), 05/05/2023-19/05/2023
ENVI/MANU VOL: 12 AGE: 18+**

SUMMARY : Support local community in the care, maintenance and cleaning of the paths on the Mediterranean coast. **#TeamSpirit # enviprotection #lunarcamp**

PARTNER : The workcamp is organized by Proloco, a cultural organization, that has among its institutional tasks the valorization of the natural, cultural and historical resources of Giglio island, as well as the realization of initiatives of touristic interest. The Pro.Loco promotes the workcamp in collaboration with the municipality and a network of associations in the area: Lega Navale, Giglio Ambiente and a Consortium of local waste companies, which work together every year to clean the island's coastline.

PROJECT : The Mediterranean Sea, although constituting less than 1% of the planet's water surface, is the sixth area of accumulation of waste in the world. Plus, during winter storms, waves dump an important amount of waste, mainly plastic. And an Island like ours, which lives mainly on tourism, the care and maintenance of its natural resources is the first ticket to see, as well as the minimum requirement to allow our visitors to live the fantastic experience they deserve. The objective of this project is to reduce the waste on the island's coast which would benefit the environment and tourism. By joining this workcamp you will contribute to the Sustainable Development Goals: **Climate Action-SDG13; Life below water-SDG14**

WORK : Volunteers will be asked to collect wastes along the coastline of the island during the project. The activities will be concentrated mainly in the morning hours. The volunteers, together with local groups, will carry out various activities: cleaning the beaches, collecting plastic material (bottles, polystyrene boxes, corks, abandoned fishing tools) for disposal. Volunteers will be accompanied to the places of collection of waste either by car, or on foot along the paths of trekking, or by sea with boats, while the waste will always be collected and brought to the dump by sea by specialized personnel. Please, be prepared for a physically demanding work.

ACCOMMODATION AND FOOD : Volunteers will be hosted in a flat with shared rooms. All supplies will be guaranteed, 3 bathrooms/showers, wi-fi connection, use of washing machine and kitchen. The volunteers will take care of the common areas and prepare meals. Vegetarian food is available.

LOCATION AND LEISURE : The island of Giglio is part of the Tuscan Archipelago National Park and the "Cetacean Sanctuary" protected area. The Island of Giglio, situated opposite Monte Argentario, covers an area of 21 square kilometers, is the second largest island in the Tuscan Archipelago and is renowned for its natural beauty: the crystal-clear emerald sea, with its rich and fishy seabed, frames an area that is still 90% wild. In addition to its natural heritage of beaches and coastline, the island has two towns, Giglio Castello, a charming medieval village that stands on the heights of the island, and Giglio Porto, the island's only port, small and picturesque, with multicolored houses and a clear sea.

Isola del Giglio has a resident community of about 1000 people, mainly engaged in tourist activities, strongly linked to their territory and always used to dealing with new visitors. <https://www.giglioinfo.it/en/>
TERMINAL: The nearest airport is Leonardo da Vinci in Rome Fiumicino, the railway station is Orbetello Scalo. Giglio Island can be reached by ferry from Porto Santo Stefano (1 hour). It takes 4 hours to reach the island of Giglio from Rome Fiumicino airport.

VOLS: 11 AGE: 18-30**

SUMMARY : Join us for promoting the short play format, encouraging a discussion on dramaturgy, and enhancing the immediacy of contemporary art languages. **#IterCulture #art #Lunarcamp #ESCinTeam**

PARTNER : IterCulture is a non-profit organization that offers services in the organization, promotion and management of cultural projects and performances. IterCulture was founded in 2009, aiming at managing its main project, Teatri Riflessi. At its 7th edition, Teatri Riflessi | International Short play Festival is a competition for professional and emerging artists and companies. Artists are asked to submit a short play, no matter the genre: drama, poetry, or dance.

PROJECT : Since its first edition in 2009, the festival, Teatri Riflessi, has been promoting the short play format, encouraging a discussion on dramaturgy, and enhancing the immediacy of contemporary art languages. The project also stimulates a reflection on the landscape, connecting the stage to the representation of the artistic, cultural, and social territory in unconventional spaces. With a combination of culture and entertainment, the festival wants to mesmerize a heterogeneous audience, especially those who do not usually go to the theater. Teatri Riflessi is meant to lift the curtain on the flowering of artistic urges, promoting the exchange of ideas, practices, and models and offering professional and emerging artists an unusual stage to connect tradition and innovation. By joining this workcamp you will contribute to the Sustainable Development Goals: **Reduce inequality -SDG10**

WORK : Volunteers will be asked to help support the organization and unfolding of the festival. Members of the TR8WorkCamp will work around 7 hours a day during the first week (from 4 to 8 July) to get to know

the event and realize the setting-up of the spaces for the activities (handmade recycled props, posters, signage...). The second week will require up to 8 hours of work a day, from 10 to 15 July, to allow the setting up of the area and the realization of some activities linked with the event (roundtables, laboratories, exhibitions). In this second week, some of the volunteers will have the chance of working in the backstage and stage setting-up, some others in the realization of communication materials (photos, social media contents, video, interviews...) related to the Festival as well as the TR8WorkCamp experience.

ACCOMMODATION AND FOOD : Volunteers will be accommodated in *Oasi Madonna del Buon Consiglio* splitting two rooms and sharing the wide communal spaces, such as the well-equipped kitchen and the large dining room. So volunteers can have their meals alone or together; they can also join the staff of IterCulture to enjoy the territory and local food together, as well as share their traditions.

LOCATION AND LEISURE : Located on Mt. Etna, Zafferana Etnea is a town of around 9,600 inhabitants, but every year hosts plenty of tourists and travelers willing to go for a hike on the volcano, visit the historical cities nearby (Catania, Taormina...) and enjoy Sicilian food and the sea.

TERMINAL: Fontanarossa Airport - Catania; Train station - Acireale; Bus stop - Zafferana Etnea.

SPECIAL REQUIREMENTS: This project is supported by the European Solidarity Corps. Food and accommodation are covered by the European Union. LUNAR TEEN 08 "Together in the forest I", Airuno (Lecco), 10/07/2023-20/07/2023 ENVI/MANU VOLS: 12 AGE: 14-17 EXTRA FEE:250€

LUNAR TEEN 11 "Together in the forest II", Airuno (Lecco), 20/07/2023-30/07/2023 ENVI/MANU VOLS: 12 AGE: 14-17 EXTRA FEE:250€

SUMMARY : Join us in the forest, to renovate and improve natural areas, challenge yourself in nature, bring life to an abandoned wood and make it accessible for the local community. Enjoy this beautiful place practicing outdoor activities! **#Citizenship #TEEN #Games #Environment #Lunarcamp**

PARTNER : The workcamp is organized by Liberi Sogni, a small non-profit organization that organizes, since 2006, social, cultural and environmental projects in the districts of Lecco, Bergamo and Monza e Brianza, in the region Lombardy. Liberi Sogni always considered the intercultural topic very important. Many people that work in the cooperative experimented directly with how important it is to promote solidarity and attention towards cultures, especially among young people. By joining this workcamp you will contribute to the Sustainable Development Goals: **LifeOnLand-SDG15** and **ClimateAction-SDG13**.

PROJECT : Since the year 2021 a new project has begun, Liberi Sogni bought a rural structure in the hill called Brianza Mountain (400 mt above sea level) named "Cascina Rapello". This is an inclusive place where everyone can take action, schools, organized groups, families, children and everyone can take part in this new adventure. The main aims of the project are environmental education, sustainability of the food chain and awareness through the active engagement of young people in an international and natural environment. Through the experience in the woods and the social farm, we would like to achieve personal development, increase active citizenship in society, improve language competences, raise participants' awareness and understanding of other cultures and countries.

WORK : Volunteers will be based in Cascina Rapello, living the international experience of working in a rural social farm, growing the vegetable garden and other cultivations, taking care of the structures as well as taking care of our 4 donkeys. Volunteers will also support work in the woods: building structures (tables, games etc.) with the materials found in site and supporting and creating artistic and social activities. Cooking to prepare lunch with the organic food from the cultivations

ACCOMMODATION AND FOOD : Volunteers will be hosted in Cascina Rapello sited in Aizurro (LC).

Volunteers will sleep in tents of 4 people. The tents will be provided, but the volunteers will have to bring their camping mattress and sleeping bag. The tents will be divided into girls and boys tents. Participants must carry their belongings in a backpack, as they will arrive at camp on foot. Electricity and hot water will be provided by photovoltaic and solar panels. The toilet is 2 compost toilets, made of wood. There are also homemade showers open air with tendons for privacy. Because of the summer dryness of the last few years, volunteers will be invited to not waste water.

The food will be prepared by the volunteers, who will eat together in a big tent or open air. Most of the food will come from local farms. Drinking water will be taken from the local fountain. There won't be an internet connection and the use of electricity will be very few since we use photovoltaic panels. Participants can bring typical food of their countries to share but alcohol is not allowed in the camp.

LOCATION AND LEISURE : Aizurro is a very little village with around 180 inhabitants. The closest place with facilities like small shops, train stations or other services is the village of Airuno (3,3 km far from Cascina Rapello). During the camp participants will stay all together in Cascina where Liberi Sogni will provide all the necessary to live. It could be organized a trip downstream to explore the area with a bath in the lake or rivers. In the afternoon volunteers will take part in special workshops in land art, and visit local small farms. During the day there is some time for games and activities (for example tree-climbing, excursions, land art). Some evenings will be organized with "cultural nights" , where one or more countries organize a dinner with the typical food and games and /or workshops to show their own culture. The rest of the evenings there will be moments at the fireplace, free evenings or some games in the darkness.

TERMINAL: The closest is Orio al Serio (BGY) but also Milan (LIN or MXP) could be fine

EXTRA FEE: of 250€

LUNAR ESC 09 "Lion Project", Monteleone Sabino , 16/07/2023-31/07/2023 MANU/CULT VOLS: 11 AGE: 18-30

SUMMARY : Joining international volunteers offers the possibility of promoting social commitment and solidarity as a possible approach to life, a goal we hold dear. **#exchange of different cultures #promote diversity #tradition #lunarcamp #ESCin Team**

PARTNER : A group of young people who, for about a year now, have been organizing ourselves to revitalize the village and, above all, to promote, within the community, the importance of being together, solidarity, respect for differences, inclusion, and active citizenship.

PROJECT : They would like to create an association to rediscover and redevelop places of the village for the local community and also by seizing the opportunity to open up to the world and to interculturality. The poor condition of places of common interest has stimulated the desire and will to reappropriate them. The first goal, besides the rehabilitation of these places, is to ensure the harmonious and positive integration of international volunteers into the local community; this means, creating a welcoming and inclusive environment where volunteers feel at ease and the local community can break down the walls of isolation. By joining this workcamp you will contribute to the Sustainable Development Goals: **Reduce inequality -SDG10 and SustainableCommunities-SDG11**

WORK : Volunteers will work 5/6 hours per day, weekend will be free. The work will be mostly in the morning because in the afternoon during the summer it is very hot. Volunteers will work on different tasks:

1. Library: Monteleone's small library is in need of some minor renovations! With putty and sandpaper we will go about removing imperfections from the walls to prepare it for the most fun part, painting the walls and ceiling!

**LUNAR ESC17 "East side Urban Regeneration", Napoli, 27/08/2023-11/09/2023 MANU/ENVI VOLS:
12 AGE: 18-30**

SUMMARY : Join an international workcamp to help redevelop the waterfront in the San Giovanni a Teduccio. New green areas for the daily life of the community. **#suburbs #Citizenship #greenareas #lunarcamp #ESCinTeam**

PARTNERS : The workcamp is organized by Lunaria in collaboration with 3 Naples associations operating in the eastern suburbs of Naples. The Association Noi@Europe with the aim of providing information on European mobility opportunities and other study, work and research opportunities for young people, also developing project ideas in the field of youth exchanges, culture, training and active citizenship. The association "TerradiConfine", a voluntary organization which supports active citizenship among young people. The association deals with urban regeneration of the territory, social justice and anti-mafia. The working methods refer to non-formal education with the aim of creating an active community in defense of the common good and the Cooperative "VeSpe - Verde Speranza" that maintains green spaces, works for territorial development and social inclusion

PROJECT : The idea is to make this place a usable space in the daily life of the community.

We decided to restore these spaces with an international volunteer camp because we like the idea of bringing young people from different countries together in a suburban community and making solidarity, multiculturalism and volunteerism a daily practice in the life of the neighborhood.

WORK : Volunteers will work max. 6 hours a day for 5 days a week (weekends off). The camp of volunteer work includes the following actions:

1. Cleaning actions to "rid" the waterfront areas of San Giovanni a Teduccio of trash;
2. Restoration of green areas of the waterfront (removing brambles, cleaning the area, cutting grass) to make them welcoming and usable;
3. Installation of informative signage, with messages casting positive messages about the environment and about how to respect green areas. The messages will be translated into multiple languages.

Staff of the host organizations will organize the days so that participants can

also participate in cross-cultural activities to get to know each other and learn about the history and traditions of the community and learn about the organizations operating in the area and their projects.

ACCOMMODATION AND FOOD : Participants will be housed in the spaces of a former school building that has been redeveloped and refunctionalized. The rooms where participants will sleep are mixed and we ask that they bring their own personal sleeping bag. The facility has a large kitchen where participants will be able to cook together. Groceries will be purchased taking into consideration the needs of all participants (diets, allergies, intolerances). The socio-economic fabric of the area is very critical, but the people who live here are very sociable and friendly. During the day, the inhabitants of the neighborhood tend to live outdoors, making the streets very lively. However, in the evening after 20.00 there are no shops and/or bars open in the evening. The neighborhood is well connected to the historic center of Naples. **TERMINAL:** The nearest airport is 'Napoli Capodichino'. Nearest train station "Napoli Centrale - Piazza Garibaldi".

SUMMARY: Join Agape, a place where you can share an intense community spirit in beautiful natural surroundings. Support local volunteers in managing the Centre with very different tasks. Don't miss this enriching human opportunity.

#interculturalism # sharing #communityLife #mountains #lunarcamp

PARTNER: It's been ten years that Lunaria and Agape are working side by side to create a space where people can meet in harmony. Agape International Ecumenical Centre is an important point of reference in Italian Protestantism, being for 70 years a place of education and development, theological exploration, political engagement, acceptance and validation of differences. A resident group still lives at Agape throughout the year. Agape was built after the Second World War as a sign of hope and reconciliation between people, thanks to the voluntary work of many young men and women. The dimensions of community and voluntary service remain fundamental. Please visit www.agapecentroecumenico.org to see which are the activity programs for this period.

By joining this workcamp you will contribute to the Sustainable Development Goals: **QualityEducation-SDG4 and GenderEquality-SDG5**, two of the pillars of Agape mission.

PROJECT: Every year many people, with different ages and religious, cultural and political backgrounds, come to Agape to discuss and to be challenged, to get to know themselves and each other and to exchange experiences around a particular theme. The work camp will support the management and support the meetings on issues of political, social, cultural and religious interest. The center is volunteers-driven, and its management is in your hands.

WORK:The workcamp is an international experience, giving the volunteers the opportunity to meet young people from all over the world. In terms of communication, the main watchword at the Center is diversity and open-mindedness. This is your chance to discover different cultures, and ideas and exchange experiences. The work accomplished on each camp is very important, the volunteers themselves are the main reason for Agape is able to keep organizing more and more projects every year. Thanks to a group of people living there all year long (the so-called Resident group), but also to the ecumenical and international community coming to help, the center has an effect on its visitors' life. As a volunteer, you will be asked to work with the Resident Group. Every Resident has a sector for which they are responsible (kitchen, cleaning, bar, maintenance,... and so on), in which you will help them, and each of the Residents will be there to help you and support you. The Centre will organize every year's national camps in the place and the international group will work in parallel with the permanent residence to guarantee the running of all other project schedules. Volunteers will help in the following tasks: kitchen, meal service (tables and dishes), cleaning, maintenance, bartending, and babysitting.

ACCOMMODATION AND FOOD: Volunteers will be host in 3-4 bed bedrooms with shared toilets on the floor. The meals are typical Italian Mediterranean cuisine, with limited consumption of meat for environmental reasons, and the possibility of choices for those who require a special diet. There is a washing machine available for the volunteers.

LOCATION AND LEISURE: Agape is in the Alps, close to Prali commune. Games, discussions, and outings can be organized during free time. Programmed activities (especially in the evening) are most of the time open to the volunteers, as long as they do not clash with work commitments. The place is beautiful but isolated, though you will stay together with many international participants attending the meetings of Agape. **TERMINAL:** Turin

REQUIREMENTS: Volunteers should come ready to accomplish each task and with an open mind. Volunteers before arrival should contact the Agape secretariat before arriving since travel to Agape can be complicated.
