

CALL FOR PARTICIPANTS: YOUTH EXCHANGE

Are you between **18 and 30 years old** and interested in **biodiversity and gender equality**? Don't wait any longer! Come and take part in our 3th edition of the **Youth Exchange: UniBio - "United in Diversity and for Biodiversity"** set up by the association **Vir'Volt** in France.

The Youth Exchange is organized around topics on environmental protection and gender issues through :

- meetings and eco-citizen workcamps,
- exchanges and workshops on the construction of gender identity, sexual identity and LGBTQIA+ issues,
- exchanges on how to take interculturality into account in environmental issues, etc,
- eco-responsible practices (eating local and organic food, home-made household products, etc.).

And all this in a group composed of several young people from other European countries at Vir'Volt!

You will **live in a community** and will have the **opportunity to participate in the organization of the days** that will be divided between **workcamps** carried out all together with the aim of acquiring ecological environmental methods and **activities and animation sessions** on gender equality, diversity, discrimination, eco-citizen practices, interculturality, etc.

We will also **share moments with the citizens of the city** as well as **information about mobility** and different cross border solidarity activities that exist.

In a process of ecological practices, we will use **recycled materials** in order to carry out concrete actions (water recuperator, pallet furniture).

If all these topics speak to you and you want to participate in an intercultural experience in an environmental context, **then apply now !**

See you soon at Vir'Volt !

WHAT'S VIR'VOLT?

It is an association located in the middle of nature. It exists since 1995 and welcomes volunteers from all over the world to share an intercultural experience, to work and live together, to learn to appreciate diversities and to act together to protect the environment.
