1-1) Brief History

NICE was **founded on the 1990 Feb. 4th** by the unknown 7 youth who had joined IVS projects abroad with the strong initiative of KAIZAWA Shinichiro (Kai) who joined the international workcamp in Poland during his one year break from the university.

In 1990 Sep., the first international workcamp of NICE was held at the foot of the Mt. Fuji in Japan.

< Some of the major achievements >

Created new types of workcamps in Japan	1993: Weekend workcamps, 2000: LMTV projects, 2002: Group workcamps, 2009: Volunteering Year, 2011: Tohoku earthquake recovery, 2013: Family workcamps, 2021 Online workcamps, etc.

Thanks to the great solidarity and collaboration with members, volunteers and partners, the numbers of Projects and Volunteers were increased till 2019, then dramatically decreased due to restrictions of movement & gathering by COVID-19 as well as most of IVS NGOs in the world.

During COVID-19 period, NICE kept national workcamps, created online/ donation projects and downsized the structure (moving the office, decreasing the paid staff) to overcome the challenges!
In 2023, Outgoing vols. reached 678 and Incoming placement finally restarted from 2022 Oct.!

1-2) Aims and Goals

Achieve a Healthy & Colorful World!

We believe, **health can be a key, one of the most important values** toward the post-modern civilization. We mean not only physical health of human bodies, but **also mental, ecological, cultural, economic and communal health!** Many people seem afraid that a low carbon society may bring us inconvenient, uncomfortable and unhappy life, but if we put more value on “health”, it may not!

To **protect/ create a colorful world** is another important goal. This means, **Diverse ecologies, cultures and personalities are harmoniously coexisted and glittered.** Potential of each actor can be more brought out with various standards!

1) Improve the social & environmental situation by direct actions!

2) Empower NPOs/ local communities and raise awareness & actions!

3) Promote global friendship/ cooperation and personal growth!

1-3) Activities - Organizing various types of workcamps on 6 themes!

To achieve the above aims, NICE mainly organizes the following types of Projects.

- * In each of them, there are **VSTV** (1-6 days), **STV** (7-29 days), **MTV** (30-182 days), **LTV** (183 days-).
- * Workcamps are **"Group living types of voluntary service"**.
- * Some projects (especially MTV & LTV) are **not workcamps, but individual** voluntary service.
- * In each of them, **many local people are actively participating** in the various ways.

6. Organize other types of projects

- * Run regular classes in the univ. and the high school.
- * Sell eco sponges made by women in the slum, Hanoi.
- * Organize special Events and publish Newsletters.

5. Organize Donation Projects

In 2024, 5,242 USD were donated to plant 26,010 mangrove trees in Cambodia by Eco Tree Action with CYA & Citizen Watch! A few other projects were also done.

2. Types & Definitions of NICE Projects

[Back to MENU](#)

2-1) What is voluntary service? - Just our way of understanding

* Actions mentioned here are just examples and not always apply to the case.

2-2) What are workcamps? - Category in voluntary service

	Group type	Individual type
Living there together	Workcamps!	
Going to/ from home		

* Workcamp is a group living type of voluntary service project

2-3) Categories of (I)VS projects by length & sizes of groups

Length \ Number of vols.	Workcamp = group type (more than 2 vols.)		Individual type (1 or 2 vols.)	
Very Short Term (Less than a week)	VSTW	(all together) VSTV	VSTI	
Short Term (1 week-1 month)	STW	(all together) STV	STI	
Middle Term (1-6 months)	MTW	(together) LMTV	(together) LMTI	MTI
Long Term (over 6 months)	LTW	LMTV	LMTI	LMI

* As most of VSTW are done in the weekends, it is often called **"Weekend Workcamps"** (even for the ones organized on Mon.-Fri.). Some NGOs call them as **"Mini Workcamps"**.

* LTV and MTV are usually called together (here as "LMTV" while some organizations call "MLTV").

* Most of IVS NGOs rarely organize VSTI and STI while **many of LMTV are individual type** (LMTI).

2-4) Other ways of Categories

International (open globally)	Regional (e.g. only for Asian)	Trilateral (3 countries)	Bilateral (2 countries)	National	Local
---	--	------------------------------------	-----------------------------------	-----------------	--------------

* Even if vols are from 2-3 countries after all, if it was open globally, it can be still called "International".

* In the wider definition, Regional/ Trilateral/ Bilateral ones can be also called "International".

Environmental	Developmental	Cultural	Educational	Social (Human Rights)
----------------------	----------------------	-----------------	--------------------	------------------------------

* There are many ways to categorize differently in each NGO and many projects are multi thematic.

Group workcamps (organized for the specific groups such as schools, companies and community clubs)

Other (Non Group) Workcamps
(Volunteers are recruited individually)

* Some NGOs call above mentioned "Bilateral workcamps" as "Group workcamps".

< History of IVS >

The first IVS (International Voluntary Service) project as "International workcamp" was started in France in 1920 by SCI (Service Civil International). Here are some sentences from their website;

SCI was founded by Pierre Cérésolle, a Swiss engineer, who established a peace and humanitarian movement in the aftermath of World War I in 1920, thereby laying down the foundations of SCI. Cérésolle organised the first international workcamp (voluntary project) on the former battlefield of Verdun (France) in 1920 in order to reconstruct the war damaged village Esnes-en-Arnonne. Amongst the participants were three Germans and Cérésolle wanted the workcamp to be a symbol of reconciliation between France and Germany. The volunteers build up temporary homes for the villagers and cleared the farmland.

For more info., see [their website](#).

3. Participation Process and Fee

[Back to MENU](#)

3-1) Participation Process - How can I join NICE projects in Japan!?

* For Non Asia where NICE has no partner, you may apply through the partner of neighboring country.

* For A), contact to in@nice1.gr.jp (Mami) and for C), contact to secretariat.nvda@gmail.com.

< How can I know if my residential country has NICE's partner NGOs!?

You can check the websites of [NVDA](#), [CCIVS](#), [ALLIANCE](#) and [SCI](#) since NICE has partnership with most of Member NGOs/ branches of those 4 IVS networks. Or you can also inquire us (in@nice1.gr.jp)!

Step 1: Send your application and pay the inscription fee

You need to fill in **Online application form** (for C, it is an Excel file) and **pay the inscription fee to your sending NGO** that will be used for their management and **does NOT go to NICE/ Local host!**

Step 2: Have an Interview (ONLY for some projects as written on the descriptions)

If you apply for the project which requires a **special point such as speaking GOOD Japanese**, you will need to have a **zoom interview with the NICE office and/ or the local host**. The details such as the date and the time will be arranged with you after having received your application.

Step 3: Receive Acceptance or Refusal

NICE will inform your sending NGO by e-mail usually within **3 working days for VSTV and STV/ 2-3 weeks for LMTV**. If accepted, Acceptance Letter and NICE Volunteers' Guide will be also sent.

Acceptance letter contains the invitation link to the **Facebook Group of your participating project** and to the **Confirmation Form** mainly to inform your flights and travelling plans.

Step 4: Book the flights as soon as being accepted

Don't wait for the Information Sheets, otherwise you may miss economical flights! Usually, if you **arrive at Japan by the day before and leave Japan from the day after, it should be fine**.

For VSTV, STV and LMTW in Japan, you will usually meet at Accommodation or train station/ bus stop nearby, **in the afternoon of the first day** and can leave there **around the noon of the last day**. Some projects are located far from the airports and it takes a quite long time to reach Meeting point.

We **write concrete latest arrival/ earliest departure time and dates at/ from the major airports** (based on the faster way by using the bullet trains, etc.) in each project description.

For LMTI in Japan, you usually need to join On Arrival Seminar and Evaluation Seminar in Yokohama (for the projects in the eastern Japan) or Osaka (for those in the western Japan), so should **fly to Tokyo (HND or NRT) or Osaka (KIX)** as specified in the project description!

This is just for **your minimum stay** while most of vols. stay for some days-weeks more before/ after the projects (we recommend "after" since you may get more info. about nice spots and even travel mates/ home stay host (Japanese vols.) during your project! **Don't expect much time for sightseeing during Projects**. If you want it, make your schedule to do it before/ after the project!

Step 5: Apply for visa (**Only** those who will need)

70 nationalities are exempted to get visa within 3-6 months stay! So, only those who are from other countries or those who will stay for a longer time will need to get visa (NICE will send the invitation letters for your application). See more details on Page 11, 3-3) Visa to join NICE Projects in Japan. The regulations are changeable, so **check the updated info.!**

Step 6: Submit the Confirmation form

All volunteers need to fill in and submit online Confirmation form (linked from the Acceptance letter) **as soon as the flights are booked, by 31 days before Project start at latest.**

Step 7: Pay the NICE Volunteers Fee

All vols. need to pay this fee beforehand (9,000 JPY/ 18,000 JPY/ 36,000 JPY/ 72,000 JPY for VSTV/ STV/ MTV/ LTV) **by 31 days before** Project start. See more details in 3-5) NICE Volunteers.

- * Only if you have special difficulties, it can be paid by cash in the project or the On Arrival Training.
- * This is actually not only the money matter, but you will get rights as “NICE Volunteers”!

Step 8: Receive the Information Sheets

Usually **by 4 weeks before** Project start, NICE will send the “**Information Sheets**” (details about the project such as Area, Background, Work, Schedule, Accommodation, What to bring, Meeting point, How to get there and Emergent contact) to you through your sending NGOs.

Step 9: Do other preparation

Do any other necessary preparation such as;

- * Volunteers insurance NICE will provide can cover only limited cases and amount of money DURING your project in Japan, so we request **all volunteers to prepare their own Travel insurance.**
- * You can **communicate with your project leaders, other volunteers and possibly, ex. volunteers on the Facebook Group of your project** (or in some cases, also by FB messengers, LINE, mails, etc.).
- * Why not to try to **learn Japanese cultures and language** (even basic words) beforehand that can be useful to understand what you will see and exchange with whom you will meet!
- * **Pre-Departure Training** may be organized physically or online by your sending NGO.

Step 10: Join the On Arrival Seminar (**Only** for LMTV especially LMTI)

Most of Volunteers for LMTI (Long and Mid Term volunteers, Individual type) and some of LMTV (Workcamp type) need to join it in Tokyo/ Yokohama or Osaka (depending on Project location) **for 2 days right before Project start.** See more details in 6-1) On Arrival/ Evaluation Seminars.

Step 11: Join the project!

You will stay and work with other volunteers and the local hosts. **Have a fruitful stay!**

- * Most of LMTI and some of LMTW vols. need to join the **Evaluation Seminar** in Tokyo/ Yokohama or Osaka which takes place together with On Arrival Seminar **for 2 days right after Project end.**

Step 12: Follow up!

You are very welcomed to keep connected and involved with NICE and your project forever!

- * **Help the future volunteers** joining the same project by giving advices on the FB group, etc. where you can also enjoy to **see how your project will be developed** by the pictures, comments, etc.
- * **Become a “Project Supporter”** with valuable donation that will help your project and NICE.
- * Connect your project host with the **similar type of NGO in your country** for possible collaboration!
- * **Organize “Japan Volunteering Night”** with other ex. volunteers of NICE projects from your country where you can enjoy meeting them and contribute to the promotion of your sending NGOs/ NICE!

3-2) Qualification - Who can join NICE projects!?

The workcamp will be very enjoyable!

But if you are **only interested** in having a holiday/ tourism

And **not motivated** for the aims, voluntary work and exchange with others in collective, simple (but healthy!) life,

better not to join our projects & travel on your own.

If your motivation is to **create a colorful and healthy community & world through the collaboration** with the local people and volunteers,

you are **very welcomed** 😊

1) High motivation for voluntary work!

- 😊 Special skills or physical strength are not necessary unless specifically stated.
- 😊 Need to be interested in the backgrounds, needs, plans & ambitions of work

2) Respect and follow the rules & cultures!

- 😊 Be responsible and keep the rules of NICE & Host.
- 😊 Have a good manner to the hosting communities.
- 😊 Respect the cultures & personalities of others.

6) Adapt and enjoy simple and local life!

- 😊 Lower carbon, healthier, less internet & cooperative.
- 😊 E.g., Be ready to eat rice 3 times a day in Japan.
- 😊 Share tasks of group life for cooking, cleaning, etc.

3) Open minded to make friends!

- 😊 Try to speak English in the group and Japanese words with local people.
- 😊 Moreover, open attitude to communicate, exchange and smile is important.

5) Have good physical and mental health!

- 😊 However, physically/ mentally disadvantaged persons can be accepted/ welcomed in some cases.
- 😊 Need to negotiate with Local host in each case.

4) Aged 18 or over (no maximum age)!

- 😊 Minimum age is 18 besides family or teen workcamps (age 15-17)
- 😊 Younger vols. can be accepted in some cases also in the "adult" workcamps.

3-3) Visa to join NICE projects in Japan

Check the updated info. at [this site](#) and [this site](#) of MOFA, Japanese embassies and any others. It will depend which category your nationality belongs to among the following A, B or C.

A: 26 Countries/ areas which has Working Holiday visa/ Visa exemption agreement with Japan

C: Countries which has no Visa exemption agreement with Japan): All the others

Working Holiday Visa (only for Category A)

This allows you to stay in Japan **up to 1 year**, so suitable for LMTVs! It also allows you to have paid jobs, so you may combine them (we don't introduce any though) and our projects for your stay.

* For more details (Age limit, other conditions and procedure), check [this page](#).

Visa exemption for short term stay (for Category A and B)

Since 2022 Oct., [visa exemption](#) is revived **up to 90 days stay in Japan as tourists** besides the following exceptions. Thus, you may get **another 90 days permission to stay by going to neighboring countries** (e.g., Korea, Taiwan) for over 10 days as some vols. have done though NICE does not guarantee your success.

- * **Austria, Germany, Ireland, Liechtenstein, Mexico, Switzerland, UK:** Up to **6 months** with extension process at the end of the first 3 months stay.
- * **Indonesia/ Thailand:** Up to **15 days**, only for those who have registered ICAO-compliant ePassport
- * **Malaysia/ Serbia/ UAE:** Only for those who have registered ICAO-compliant ePassport
- * **Hong Kong/ Macao:** Only for holders of Special Administrative Region (SAR) passport
- * **Barbados/ Turkey/ Lesotho:** Only for holders of MRP or ePassport with ICAO standards.

Visa for the voluntary service (for Category C)

With this visa, you usually can stay in Japan **up to 90 days while those from some countries be allowed to stay only for the period you will have applied with your participating projects**). This depends on the policies of each embassy, so check it at your Japanese embassy.

You and NICE need to prepare some documents for visa applications and the process may take a few weeks or even months. But **don't worry**, most of the volunteers in the past (with proper preparation) could successfully get visa!

3-4) Financial management of NICE Projects & Exchange

Fee 1: Inscription fee the volunteers pay to their sending NGOs (Amount depends on each NGO)
This is used for the management of Sending NGOs, **does NOT go to neither NICE nor Local host.**

Fee 2: NICE volunteers fee (9,000/ 18,000/ 36,000/ 72,000 JPY for VSTV/ STV/ MTV/ LTV)
This is used for the management of your project and NICE, **does NOT go to Local host.**

Fee 3: Additional fee ONLY for some projects (Amount depends on each project)
This is quite exceptional and mentioned in the project description where Local host cannot provide Meals and Accommodation by free by special circumstances (mostly, Family/ Teenage workcamps).

Fee 4: NICE Special Membership fee (19,000-49,000 JPY for VSTV-LTV for the first time)
This is paid by National (usually Japanese) vols. and used for the management of project and NICE.

* The above chart explains **only the financial** (monetary or materialistic) **aspects** and we believe, all stakeholders are **strongly connected & collaborated for the common goals and values** above all!

* As you can see, **Meals & Accommodation are provided by free by Local hosts** (unless they charge Fee 3 exceptionally) with appreciation to your contribution to work together voluntarily, so **don't complain like "I've paid XXX, but what's this food and house"** and let's appreciate each other!

< Why do I have to apply through my sending NGOs? >

1. You can have better preparation

with them that have more common language and cultures as you in the same country.

They have years of experiences, know-hows and other resources to send volunteers abroad

For example, they could possibly introduce ex. vols. in NICE projects from your country and/ organize your Pre-Departure Seminar.

2. They (and NICE) can act as a bridge

in case you and Local hosts cannot solve any issues well bilaterally during the project (though this is quite rarely happened.)

It is also helpful for NICE/ Local hosts to have them as the coordination/ promotion bodies and focal points rather than being connected with each volunteer individually only.

3. IVS NGOs are sustained by (ex.) vols!

Most of staff/ active members of IVS NGOs have joined IVS/ workcamps first, then got passionate and motivated to develop and promote IVS in/ from their countries.

You can be also benefitted to meet many great ex. vols. and do meaningful/ exciting activities!

4. Many IVS NGOs are financed by vols.

For the freedom and financial health/stability, many IVS NGOs choose to be supported by the volunteers, rather than the external big funds.

It is also reasonable that NGOs are financed by the people living in the same countries since they have common economic & social base. (#)

#: You may wonder then why "NICE Volunteers" fee is charged, but it is only a small part of NICE's finance for the diversification of income resources. By the way, most of IVS NGOs in the "South" greatly depend on the fee income from international volunteers due to their special circumstances.

3-5) NICE Volunteers - Fee and Benefits

< How much should I pay? >

VSTV (1-6 days): **9,000 JPY** (about 50 EUR)/ **STV** (7-29 days): **18,000 JPY** (about 100 EUR)

MTV (30-182 days): **36,000 JPY** (about 200 EUR)/ **LTV** (over 182 days): **72,000 JPY** (about 300 EUR)

* EUR is calculated by XE rate on 2025 Nov. 03 and actually will be different depending on the rate.

* This is charged for every time of participation even from the repeaters of the same project/ year.

< What this fee is used for? >

1. Summary	Supporting a village next to Kakurin-ji temple with agriculture and revitalization of the community!								
2. Background	This project is actively working for SDG 2 (Zero Hunger) and SDGs 11 (Sustainable Cities and Communities), organized together with the local group since 2019. This village has been welcoming "Ohenro (pilgrims)" who visit 88 temples in Shikoku since long time ago. The pilgrims walk through this village before visiting "Kakurin-ji temple"; the 20th temple out of 88 temples of the Shikoku Ohenro Pilgrimage. However, there are problems which should be solved such as aging and depopulation of the community these days, and locals haven't been able to find solutions for those problems. On the other hand, since more and more people from overseas visit for the Shikoku Ohenro Pilgrimage locals are trying to find new ways for "omotenashi (hospitality)". Volunteers who have been working on the project have come up with ideas for the reuse of vacant and abandoned land. Local host Oi have finally decided that they can freely renovate and modify the vacant houses. Moreover, the site is in a good location, with mountains, a river and fields. It is up to the volunteers from now on to decide how to develop the project. The aim is for the volunteer members to clean up the abandoned houses and village landscape and transform it into a village that people will want to visit to take photos, as it used to be a village where people came and went since ancient times.								
3. Work	1) Support for agricultural activities to revitalize the Sudachi production area. 2) International cultural exchange activities with the few children in the community. 3) Cleaning vacant houses, moving furniture, trimming overgrown cedar and cypress branches in abandoned forests, and picking up plastic waste from rivers and seas. 4) Activities to support English signage at various locations for foreign pilgrims. 5) Maintenance of areas for the Asagimadara butterfly and firefly habitats. etc.								
4. Accommodation	Home staying at local farmhouses. All meals will be cooked by volunteers by turns. Sleeping bag is NOT necessary.								
5. Study theme	Finding ways for sustainability of a depopulated village, Pass down the "osettai" culture to the next generation, Helping senior citizens to host foreigners								
6. Other activities	Visiting Kakurin-ji temple.								
7. Location	Oi-cho, Anan city, Tokushima pref.								
8. Terminal	The nearest int'l airport is Kansai (Osaka). From Osaka to the meeting point in Tokushima, it takes 3 hours by highway bus. Volunteers are recommended to arrive at Japan by the day before the workcamp starts and leave Japan from the day after the end. Volunteers need to arrive at the meeting point at 15:00 on 1st day (then, take a local train to the campsite about 1h) and can leave project site around noon on the last day.								
9. Requirement	Positive attitude, a willingness to work hard and communicate with local people!								
10. Participation fee	9,000 JPY (50 EUR by the rate on 2025 Nov. 3rd) of "NICE Volunteers" fee need to be paid in advance either by Card or PayPal. This is used for the project preparation/ coordination such as the transportation of the staff/ camp leaders, visa invitation cost, publications, etc. while the meals and the accommodation are provided by the local host by free (so, your fee is not used for those things!).								
11. Language	English (Japanese is also welcomed!)								
12. Other	Follow the Oi Workcamp Instagram(@ooi_workcamp) to see the volunteers' daily activities.

NICE-26V-0112A	Maki & Tateya 1	Nagano	Japan	01/12	01/17	CULT, MANU, SOCI	5	18	99
1. Summary	Clearing snow to protect the cultural heritage in the beautiful and traditional mountain communities in Japan. No road for cars, the only way to reach there is by walk for 1.5 hours!								
2. Background	This project is actively working for SDG 2 (Zero Hunger) and SDGs 10 (Reduced Inequalities), organized together with Kyodo Gakusha (since 2000 here), a cooperative community where people with various backgrounds such as mentally disadvantaged, people who are tired of city life, who want to learn farming, who want to live in the nature, etc. They have 5 communities in Japan incl. Maki and Tateya and grow animals and vegetables in an ecological, organic way. Maki is located in a very isolated area (not accessible for cars and we have to walk 4 km in the mountains!), so it once became an abandon village in 1970s and then, was revived by Kyodo Gakusha. Over 10 people were living till several years ago, but less and less in these years (almost nobody in the winter), so vols. are needed even more! *Outcome of this project: In 2025, we had 20 STVs for 4 short term workcamps and 3 LMTVs from 9 countries who greatly contributed to their protecting the houses, farming and caring animals that was difficult to finish by the time they needed without volunteers! 2025 Feb. workcamp saved 7 houses of the valuable cultural heritages from the destruction by heavy snow! See the long-term goal of this project as Local SDGs made by the previous project leader at https://www.slideshare.net/nice-workcamp/2019-ep3-188767935 (only in Japanese, sorry, but you can still enjoy the pictures!)								
3. Work	The volunteers will mainly clear the snow on the roofs and the surroundings of the old, traditional houses in Maki. They will also carry the things from the town to Maki and join the house work such as cooking, washing, clearing, etc. They may also help the work in Tateya for a few days (clearing snow and taking care of animals). Be ready to work for quite a long time (06:00-18:00 with some brakes) and hard! It'd be surely good exercise to make your body more healthy!								
4. Accommodation	Maki: Volunteers will sleep in a few rooms of the volunteers' house that is a very beautiful cultural heritage and equips the basic facilities such as water, electricity, toilets and a bath room! They will have meals, meetings and social life with Kyodo Gakusha members in the main building (just 30 meters far). Meals will be cooked by together with the members by turns. Sleeping bag is not necessary. Tateya: Building for volunteers and a few members, 5 min. walk from the farm. Meals will be usually cooked by volunteers by turns. Sleeping bag is not necessary.								
5. Study theme	Similar type of communities in each country and their networking								
6. Other activities	Play in snow in the free time!? As this is only 6 days workcamp, there is no free day, so if the volunteers want to enjoy the sightseeing, they should do it before/ after the workcamp!								
7. Location	Both are located in the beautiful places near "Japanese Northern Alps". Maki is in about 900 meters asl. and there is something remained here that most of Japanese areas have lost in modernization. Tateya is surrounded by the farms and 40 min. walk from the train station.								
8. Terminal	The nearest international airport is Tokyo (NRT or HND). From Tokyo to the meeting point near the project, it takes 5 hours by express bus. Volunteers need to arrive at the airport in Tokyo by the end of Jan. 11 and can leave there from the beginning of Jan. 18.								
9. Requirement	Volunteers need to have high motivation and patience to keep the same hard, long and important work in the very isolated, natural place and to respect the way of the local host. No special skills nor experiences are needed. Motivation letter is needed!								
10. Participation fee	9,000 JPY (50 EUR by the rate on 2025 Nov. 3rd) of "NICE Volunteers" fee need to be paid in advance either by Card or PayPal. 11. Language	English (Japanese is also welcomed!)								
12. Other	The popular documentary film for this place was broadcasted in 2015 at arayashiki-movie.jp/en/ .

Local host Oi have finally decided that they can freely renovate and modify the vacant houses. Moreover, the site is in a good location, with mountains, a river and fields. It is up to the volunteers from now on to decide how to develop the project. The aim is for the volunteer members to clean up the abandoned houses and village landscape and transform it into a village that people will want to visit to take photos, as it used to be a village where people came and went since ancient times.

Work	1) Support for agricultural activities to revitalize the Sudachi production area. 2) International cultural exchange activities with the few children in the community. 3) Cleaning vacant houses, moving furniture, trimming overgrown cedar and cypress branches in abandoned forests, and picking up plastic waste from rivers and seas. 4)Activities to support English signage at various locations for foreign pilgrims.

1. Summary	Family workcamp! Organic farming and nature life in the beautiful and traditional mountain communities in Japan. No road for cars, the only way to reach there is by walk for 1.5 hours!								
2. Background	This project is actively working for SDG 2 (Zero Hunger) and SDGs 10 (Reduced Inequalities), organized together with Kyodo Gakusha (since 2000 here), a cooperative community where people with various backgrounds such as mentally disadvantaged, people who are tired of city life, who want to learn farming, who want to live in the nature, etc. They have 5 communities in Japan incl. Maki and grow animals and vegetables in an ecological, organic way. Maki is located in a very isolated area (not accessible for cars and we have to walk 4 km in the mountains!), so it once became an abandon village in 1970s and then, was revived by Kyodo Gakusha. Over 10 people were living till several years ago, but less and less in these years (almost nobody in the winter), so vols. are needed even more! *Outcome of this project: In 2025, we had 20 STVs for 4 short term workcamps and 3 LMTVs from 9 countries who greatly contributed to their protecting the houses, farming and caring animals that was difficult to finish by the time they needed without volunteers! See the long-term goal of this project as Local SDGs made by the previous project leader at https://www.slideshare.net/nice-workcamp/2019-ep3-188767935 (only in Japanese, sorry, but you can still enjoy the pictures!)								
3. Work	Volunteers will help their organic farm by weeding in the rice and vegetable fields, planting vegetables, taking care of goats and chicken and also renovate the trails and the traditional house, help their house works such as cooking, washing, carrying the stuffs from the down village. Be ready to work for quite a long time (06:00-18:00 with some brakes) and hard. Kids may sometimes be separated to plan in the nature with care of some adults.								
4. Accommodation	Volunteers will sleep in a few rooms of the house that is a very beautiful cultural heritage and equips the basic facilities such as water, electricity and a bath room! They will have meals, meetings and social life with Kyodo Gakusha members in the main building (just 30 meters far). Meals will be cooked by volunteers together with the members by turns. Sleeping bag is not necessary.								
5. Study theme	2030 goals of Kyodo Gakusha and children's growth in each country								
6. Other activities	Various play in the nature! As this is only 6 days workcamp, there is no free day, so if the volunteers want to enjoy the sightseeing (e.g., Hakuba), they should do it before/ after the workcamp!								
7. Location	Maki is located in the beautiful place near "Japanese Northern Alps", at about 900 meters asl. and there is something remained here that most of Japanese areas have lost in modernization.								
8. Terminal	The nearest international airport is Tokyo (NRT or HNH). From Tokyo to the meeting point near the project, it takes 5 hours by express bus. Volunteers need to arrive at the airport in Tokyo by the end of Aug. 23 and can leave there from the beginning of Aug. 30.								
9. Requirement	Only families (no age limit for the children!) can join this program. Up to 3 persons (1-2 kids) per family. Parents volunteers need to be physically strong and flexible to respect the way of the local host. Motivation letter is needed!								
10. Participation fee	9,000 JPY (50 EUR by the rate on 2025 Nov. 3rd) of "NICE Volunteers" fee need to be paid in advance either by Card or PayPal. This is used for the project preparation/ coordination such as the transportation of the staff/ camp leaders, visa invitation cost, publications, etc. while the meals and the accommodation are provided by the local host by free (so, your fee is not used for those things!). Child is exempted, but need to pay 6,000 JPY per child for the meals instead to be paid on the arrivals.

1. Summary	Working in SATOYAMA forest !								
2. Background	This project is actively working for SDGs 15 (Life on Land), organized together with "Akame no SATOYAMA wo Sodateru kai", a local environmental organization for conservation of SATOYAMA forest working in Nabari city, since 1999. Because this area is relatively close to the big cities between Osaka and Nagoya, there were plans to build a golf field and a disposal center. However, the local people stopped those plans by collecting donations and buying the land to keep beautiful nature. SATOYAMA needs to be maintained by humans for its biodiversity and water adjustment function. Our ancestors had protected and utilized the forest in an ecological and sustainable way, which has been neglected by modernization at many places in Japan. *Outcome of this project: Over the last 20 years, 30 ha of SATOYAMA forest has been maintained by the previous volunteers. Please see the presentation of the camp leader for the IVS contest in Japan; https://www.slideshare.net/nice-workcamp/w55 (only Japanese for the moment, but you can at least enjoy the pictures!).								
3. Work	1) Cutting down trees in the forest and carry them out so that SATOYAMA forest receives enough amount of sun light and will be kept in the healthy condition for biodiversity. You sometimes need to use blades and machineries under the supervision. 2)Volunteers may take care of free-range raised chickens. Volunteers sometimes work with mentally/physically challenged people who work at the same place. 3)Harvesting mushrooms								
4. Accommodation	Volunteers will stay in a regular Japanese house. Meals will be cooked by volunteers by turns. Sleeping bag is NO need. The bath is a traditional style where we heat the water ourselves using firewood.								
5. Study theme	Volunteers will acquire the knowledge of conservation work in SATOYAMA forest.								
6. Other activities	Hiking, Visiting Nara prefecture on free day etc.								
7. Location	Workcamp is held in Kami-mitani area, Nabari city, Mie prefecture, about 60 km from Osaka. There are famous falls nearby that many hikers visit.								
8. Terminal	The nearest airport is Osaka (KIX) or Nagoya (NGO). To the meeting point, it takes 2-3 hours by train from the both airports. Vols. need to arrive at KIX or NGO by Mar. 8 and can leave there after 13:00 on last day.								
9. Requirement	Strong motivation and physical strength are highly needed.								
10. Participation fee	18,000 JPY (100 EUR by the rate on 2025 Nov. 3rd) of "NICE Volunteers" fee need to be paid in advance either by Card or PayPal. 1. Summary	Farming on an organic farm with a great view!								
2. Background	This project is actively working for SDG2 (Zero Hunger) and SDGS15 (Life on Land). This project is co-organized with "Sugiura Farm" that engages in organic farming for pursuing food safety and an environmental-friendly society. In the Gose area, many local farmers have become too old to continue working on their farms. The host, Mr. Sugiura, took over their fields and has been maintaining them to make the land productive again. He grows rice for Japanese sake, cultivates organic vegetables, makes his own fertilizer, and even processes the harvest into various products.

1. Summary	Preserving the beautiful beech forests and enjoy your stay in beautiful rural area where is famous for tasty sea foods!								
2. Background	This project is actively working for SDG13 (Climate Action) and SDGs 15 (Life on Land), organized together with Shirakami Mountains Preservation Society (SMPS), since 2006. The Shirakami Mountains is one of Japanese valuable preserved natural forests consisting primarily of beech trees, registered as a World Natural Heritage in 1993. SMPS aims to preserve the natural beauty of the Shirakami Mountains by nurturing seedlings of beech trees, planting them, training mountain guide, etc. SMPS hosts tree-planting ceremony every June for preserving beech forests and promoting the value. They also preserve the forests near the Mutsu-bay, famous as production of scallops. Due to climate change, the sea water temperature increased abnormally in 2010, the most of scallops were dead, so SMPS started to preserve the forest there to let nutrient water flow to the ocean.								
3. Work	Work will be carried out in two locations, Ajigasawa and Hiranai. In Ajigasawa, volunteers will remove the snow fence of Shirakami Nature School, putting up a plastic greenhouse, chopping firewood, and digging and transport new saplings at the nursery. In Hiranai, work is carried out to remove dead saplings and replant new ones. The contents of work might be changed due to weather condition, so volunteers need to be flexible!								
4. Accommodation	Shared room in school dormitory. Sleeping bag is needed! Meals will be cooked by volunteers by turns.								
5. Study theme	Volunteers will get knowledge of history and culture of Shirakami-Sanchi World Heritage, and skills of conservation forests in Japan.								
6. Other activities	Enjoy rich nature around accommodation, taking a walk at morning, hot spring, etc.								
7. Location	Volunteers will work in Ajigasawa town and Hiranai town in Aomori prefecture. Aomori is located on the northernmost tip of Honshu Island. Shirakami Mountains located in southwest and the Mutsu-bay nestles between the eastern Shimokita and western Tsugaru Peninsulas. This is the good season for cherry blossom-viewing there. In this workcamp, volunteers doesn't have chance to go to Shirakami-sanchi world heritage place.								
8. Terminal	The nearest international airport is Tokyo (NRT or HND) from which it takes 7 hours by bullet train and local train or 10 hours by night bus and local train to the meeting point in Aomori pref. Vols. need to arrive at NRT or HND by 18:00 on 1day before of first day and can leave there after 22:00 on last day. It is better to book flight on or after May 06.								
9. Requirement	Volunteers should be prepared to work hard outside in good and bad weather and have high motivation for work in the forests actively with local people.								
10. Participation fee	18,000 JPY (100 EUR by the rate on 2025 Nov. 3rd) of "NICE Volunteers" fee need to be paid in advance either by Card or PayPal. 1. Summary	Organic farming and nature life in the beautiful and traditional mountain communities in Japan. No road for cars, the only way to reach there is by walk for 1.5 hours!								
2. Background	This project is actively working for SDG 2 (Zero Hunger) and SDGs 10 (Reduced Inequalities), organized together with Kyodo Gakusha (since 2000 here), a cooperative community where people with various backgrounds such as mentally disadvantaged, people who are tired of city life, who want to learn farming, who want to live in the nature, etc. They have 5 communities in Japan incl. Maki and grow animals and vegetables in an ecological, organic way. Maki is located in a very isolated area (not accessible for cars and we have to walk 4 km in the mountains!), so it once became an abandon village in 1970s and then, was revived by Kyodo Gakusha. Over 10 people were living till several years ago, but less and less in these years (almost nobody in the winter), so vols. are needed even more! *Outcome of this project: In 2025, we had 20 STVs for 4 short term workcamps and 3 LMTVs from 9 countries who greatly contributed to their protecting the houses, farming and caring animals that was difficult to finish by the time they needed without volunteers! Especially for June, it was very helpful to have managed to finish rice planting:) See the long-term goal of this project as Local SDGs made by the previous project leader at https://www.slideshare.net/nice-workcamp/2019-ep3-188767935 (only in Japanese, sorry, but you can still enjoy the pictures!)								
3. Work	We will help their organic farming (planting rice and vegetables, weeding in the vegetable fields, taking care of goats and chicken) and also carry the things from the town, renovate the trails, reconstruct the neighboring traditional house owned by the ex. inhabitant and destroyed by snow, help the house work such as cooking, washing, clearing, etc. Be ready to work for quite a long time (06:00-18:00 with some brakes) and hard!								
4. Accommodation	Volunteers will sleep in a few rooms of the house that is a very beautiful cultural heritage and equips the basic facilities such as water, electricity and a bath room! They will have meals, meetings and social life with Kyodo Gakusha members in the main building (just 30 meters far). Meals will be cooked by volunteers together with the members by turns. Sleeping bag is not necessary.								
5. Study theme	Similar type of communities in each country and their networking								
6. Other activities	Exchange program, Excursion on a free day (possibly to Hakuba, a famous tourism spot), etc.								
7. Location	Maki is located in the beautiful place near "Japanese Northern Alps", at about 900 meters asl. and there is something remained here that most of Japanese areas have lost in modernization.								
8. Terminal	The nearest international airport is Tokyo (NRT or HND). From Tokyo to the meeting point near the project, it takes 5 hours by express bus. Volunteers need to arrive at the airport in Tokyo by the end of May 31 and can leave there from the beginning of Jun. 14.								
9. Requirement	Volunteers need to have high motivation and patience to keep the hard, long and important work in the very isolated, natural place and to respect the way of the local host. No special skills nor experiences are needed. Motivation letter is needed!

1. Summary	Let's preserve the traditional plum farming system with a 400-year history.								
2. Background	This project is actively working for SDG2 (Zero Hunger) and SDGs 11 (Sustainable Cities and Communities), organized together with Akitsugawa Promotion Group (APG) since 2024. Tanabe City and Minabe Town in Wakayama Prefecture are Japan's largest Ume(plums) products-growing areas. The region features a unique plum cultivation agricultural system that has been recognized as a World Agricultural Heritage by FAO. This system utilizes nutrient-poor, gravelly, and unstable slopes, preserving firewood and charcoal forests while strategically planting plum orchards. For over 400 years, it has sustainably produced high-quality plums, maintained through various wisdom and innovations. However, the region is also suffering from an aging population and declining birth rate, and sustainable agriculture, particularly plum farming, is in danger due to a lack of manpower. An international workcamp was organized with the aim of spreading the plum and the region's attractions to volunteers from all over the world, and passing to the next generation.								
3. Work	Collecting plums that naturally fall from the tree onto the net. Harvesting and sorting of plums on trees by hand. Cultural exchange through visiting schools. etc.								
4. Accommodation	All volunteer members stay together in a single large shared room of community center. Sleeping bag is not needed! Meals will be cooked by volunteers by turns.								
5. Study theme	Volunteers have opportunities learning about "Minabe-Tanabe Ume system", which is a World Agricultural Heritage Site.								
6. Other activities	Observation of charcoal making, making plum juice, etc.								
7. Location	Tanabe City is located in south-central Wakayama Prefecture. It is the second largest city in Wakayama Prefecture and the economic and industrial center of southern Wakayama. It is the junction of the Nakaheji and Oheji routes of the Kumano Kodo, and is known as 'Kuchikumano'. With an area of over 1,000 km ² , the city has the largest area of any city in the Kinki region.								
8. Terminal	The nearest airport is Osaka (KIX) . To the meeting point, it takes 2-3 hours by Express train from the airport. Vols. need to arrive at KIX by 07:00 on the first day and can leave the project site after noon on Jun 23.

Shirakami Mountains is one of Japanese valuable preserved natural forests consisting primarily of beech trees, registered as a World Natural Heritage in 1993. SNS has a summer vacation program for children aged 7-12 who will play and live in the nature to grow their independence, cultivate sensitivity, and learn group cooperation. Volunteers are also responsible for the safety of the children, providing behind-the-scenes support and encouragement for the children to enjoy their activities, and acting as a bridge between the children and foreigners. In addition, there is a possibility of doing environmental maintenance around the school. Work content may change depending on the weather, so a flexible attitude is important!

1. Summary	Working in SATOYAMA forest and help organizing a kids' camp!								
2. Background	This project is actively working for SDG 4 (Quality Education) and SDGs 15 (Life on Land), organized together with "Akame no SATOYAMA wo Sodateru kai", a local environmental organization for conservation of SATOYAMA forest working in Nabari city since 1999. Because this area is relatively close to the big cities between Osaka and Nagoya, there were plans to build a golf field and a disposal center. However, the local people stopped those plans by collecting donations and buying the land. SATOYAMA needs to be maintained by humans for its biodiversity and water adjustment function. Our ancestors had protected and utilized the forest in an ecological and sustainable way, which has been neglected by modernization at many places in Japan.								
3. Work	1) Cutting down trees in the forest and carry them out so that SATOYAMA forest receives enough amount of sun light and will be kept in the healthy condition for biodiversity. 2) Supporting Satoyama Kids weekend camp . 3)Volunteers may take care of free-range raised chickens. Volunteers sometimes work with mentally/physically challenged people who work at the same place. 3)Harvesting mushrooms								
4. Accommodation	Volunteers will stay in a regular Japanese house. Meals will be cooked by volunteers by turns. Sleeping bag is NO need. The bath is a traditional style where we heat the water ourselves using firewood.								
5. Study theme	Volunteers will acquire the knowledge of conservation work in SATOYAMA forest.								
6. Other activities	Hiking, Visiting Nara prefecture on free day etc.								
7. Location	Workcamp is held in Kami-mitani area, Nabari city, Mie prefecture, about 60 km from Osaka. There are famous falls nearby that many hikers visit.								
8. Terminal	The nearest airport is KIX (Osaka) or Nagoya (NGO). To the meeting point, it will take about 2-3 hours by train from the both airports above. Volunteers need to arrive at the airport by 10:00 on 1st day and can leave there afternoon on the last day.

6. LMTV - Long and Mid Term Projects (in Japan)

[Back to MENU](#)

- * LMTV is a voluntary service project which duration is over 1 month (**30 or more days**) that can be separately called MTV for 1-6 months (30-182 days) and LTV over 6 months (183 or more days).
- * Many projects are **Individual** volunteering type (**LMTI**) while some are **Workcamps** type (**LMTW**).

6-1) On Arrival/ Evaluation Seminars

Volunteers of LMTI (individual type) usually need to join both On Arrival and Evaluation Seminars unless there are special circumstances and exceptionally agreed by NICE. Vols. for LMTW (workcamp type) can usually have Arrival Orientation and Evaluation Meeting in the project sites.

The places and dates of the seminars are divided depending on your project location (with some exceptions) and usually organized in the weekend for 2 days every 12 weeks in each region;

- 😊 Join “**East**” for Projects in the eastern part of Japan (**Prefecture no. 1-23** of the map below) usually at NICE house/ office in Yokohama (Kanagawa), but sometimes other places around Tokyo.
- 😊 Join “**West**” for Projects in the western part of Japan (**Prefecture no. 24-47** of the map below) usually at NICE House West in Tondabayashi (Osaka), but sometimes other places around Osaka.
- 😊 Some projects which periods are limited have cross over (East Seminar for Western projects and vice versa) for On Arrival and/ or Evaluation Seminar to give more chance of flexible length. For 2026, this applies to ama, Maki and Tateya.

The hosts are making small changes to the place and building the community. Together with volunteers from Japan and around the world, they hope to pass on the local cultural traditions to future generations. 1. Summary	Let's preserve way of traditional Japanese life in mountain area!								
2. Background	This project is actively working for SDG 2 (Zero Hunger) and SDGs 10 (Reduced Inequalities), organized together with Kyodo Gakusha (since 2000 here), a cooperative community where people with various backgrounds such as mentally disadvantaged, people who are tired of city life, who want to learn farming, who want to live in the nature, etc. They have 5 communities in Japan incl. Maki and grow animals and vegetables in an ecological, organic way. Maki is located in a very isolated area (not accessible for cars and we have to walk 4 km in the mountains!), so it once became an abandon village in 1970s and then, was revived by Kyodo Gakusha. Over 10 people were living till several years ago, but less and less in these years (almost nobody in the winter), so vols. are needed even more! *Outcome of this project: In 2025, we had 20 STVs for 4 short term workcamps and 3 LMTVs from 9 countries who greatly contributed to their protecting the houses, farming and caring animals that was difficult to finish by the time they needed without volunteers! See the long-term goal of this project as Local SDGs made by the previous project leader at https://www.slideshare.net/nice-workcamp/2019-ep3-188767935 (only in Japanese, sorry, but you can still enjoy the pictures!)								
3. Work	Volunteers mainly work for organic agriculture (cultivation, seeding, weeding, harvesting, taking care of goats, cows and chicken, making their feeds) and also carrying the things from the town to Maki, renovating the houses and trails on the way, constructing a hut, reconstructing the neighboring traditional house owned by the ex. inhabitant and destroyed by snow, help the house works especially cooking, etc. It's important and necessary to actively join the daily meeting and actively share the collective life. Be ready to work for quite a long time (06:00-18:00 with some brakes) and hard. It'd be surely good exercise to make your body more healthy!								
4. Accommodation	Volunteers will live in the main house that is a very beautiful cultural heritage and equips the basic facilities such as water, electricity, kitchen, toilets and a bath room! Single room can be provided. They will have meals, meetings and social life with Kyodo Gakusha members. Meals will be cooked by volunteers together with the members by turns. Sleeping bag is not necessary. There is no wifi.								
5. Study theme	Similar type of communities in each country and their networking								
6. Other activities	Exchange program, Excursion on a free day (possibly to Hakuba, a famous tourism spot), etc.								

7. Location	Maki is located in the beautiful place near “Japanese Northern Alps”, at about 900 meters asl. and there is something remained here that most of Japanese areas have lost in modernization.	
8. Terminal	The nearest airport is Tokyo (NRT or HND) from which it takes 7 hours to the project by train and bus to the project location. However, volunteers need to join On Arrival (in Yokohama for MK01-06, 12-15, 19-20 and Osaka for MK07-11, 16-18, 21) and Evaluation Seminars (in Yokohama for MK02, 04, 06, 07, 09, 11, 13, 15, 16, 18, 20, 21 and Osaka for MK01, 03, 05, 08, 10, 12, 14, 17, 19), so firstly should arrive at/ leave NRT or HND if the seminar is in Yokohama and KIX if it is in Osaka, by 08:00 on the starting day and can leave there after 18:00 on the ending day.	
9. Requirement	Motivation letter is needed! Volunteers need to have some Japanese speaking skill (manage to have basic daily conversation) and high motivation and patience to keep hard, long and important work in the very isolated, natural place, to respect the way of the local host and to learn and speak Japanese language is needed. No special skills nor experiences are needed.	
10. Participation fee	36,000 JPY (200 EUR by the rate on 2025 Nov. 3rd) for MTV (30-182 days participation) and 72,000 JPY (400 EUR by the rate on 2025 Nov. 3rd) for LTV (over 182 days participation) of "NICE Volunteers" fee need to be paid in advance either by Card or PayPal. This is used for the project preparation and coordination such as the transportation of the staff/ camp leaders, visa invitation cost, publications, etc. while the meals and the accommodation are provided by the local host by free.	
11. Language	Japanese and English (a few of the local host can speak basic English)	
12. Other	The first and last 2 days are On Arrival and Evaluation Seminars in Yokohama or Osaka. The popular documentary film for this place was broadcasted in 2015 at arayashiki-movie.jp/en/.

1. Summary	Supporting a village next to Kakurin-ji temple with agriculture and revitalization of the community!								
2. Background	This project is actively working for SDG 2 (Zero Hunger) and SDGs 11 (Sustainable Cities and Communities), organized together with the local group since 2019. This village has been welcoming "ohenro (pilgrims)" who visit 88 temples in Shikoku since long time ago. Also, Sudachi, an essential ingredient in Japanese cuisine, is now facing a serious risk of disappearing due to the aging of its producers. This project involves working in sudachi farming to help revitalize the local production area, while also promoting international exchange with the few children living in the region and giving them opportunities to experience different cultures. Since more and more people from overseas visit for the Shikoku Ohenro Pilgrimage, locals are trying to find new ways for "omotenashi (hospitality)". We aim to restore and beautify the old, charming village scenery together with volunteers, and make it a place where many people will want to visit.								
3. Work	1)Harvesting and shipping the Japanese star anise (shikimi).[Aug/Sep/Dec], 2) Supporting for harvesting and picking up sudachi (Japanese citrus fruit) [Apr/Aug/Sep/Oct], 3) Plantings Sudachi in new fields to maintain the declining sudachi production due to the aging farmer's population[Mar/Apr], 4)organize and hold a "Language Café" once a week, where local children and adults can enjoy cultural and language exchange with people from around the world, 5) Cleaning of vacant houses, support for carrying out furniture, and help repair vacant houses								

4. Accommodation	Home staying at local farmhouses. All meals will be cooked by volunteers by turns. Sleeping bag is NOT necessary.
5. Study theme	Finding ways for sustainability of a depopulated village, Pass down the "osettai" culture to the next
6. Other activities	Visiting &Hiking around Kakurin-ji temple./Joining Local festival
7. Location	Oi-cho, Anan city, Tokushima pref.
8. Terminal	The nearest airport is Osaka (KIX). it takes 3 hours by highway bus to the project location. However, volunteers need to join On Arrival and Evaluation Seminars in Osaka, so volunteers are advised to arrive at KIX one day before the starting date for on-arrival Seminar and can leave KIX after 18:00 on the ending day.
9. Requirement	Positive attitude, a willingness to work hard and communicate with local people!
10. Participation fee	36,000 JPY (200 EUR by the rate on 2025 Nov. 3rd) for MTV (30-182 days participation) and 72,000 JPY (400 EUR by the rate on 2025 Nov. 3rd) for LTV (over 182 days participation) of "NICE Volunteers" fee need to be paid in advance either by Card or PayPal. 7. Projects outside Japan (STV)

[Back to MENU](#)

NICE has been actively working with “new” NGOs in Asia-Pacific where there had been no IVS projects or done by the specific networks exclusively. By co-organizing the pilot projects for some years, we share visions, values, know how and networks with those NGOs to enable to do it completely by themselves afterwards.

However, some of them keep co-organizing the projects with NICE which is still in charge of the recruitment of the international volunteers due to various circumstances (lack of human resources, etc.). So, please send the applications of your volunteers to “Outgoing” placement officer of NICE (out@nice1.gr.jp).

- For PLATO, our incoming placement officer keeps forwarding the applications internally, so no worry!
- Project is Thailand is a different case to have been initiated by the partner university.

7-1) Summery List of Projects

NICE-26Y-0201A	Maesot	Maesot	Thailand	02/01	02/07	SOCI, CHIL, EDUC	15	18	99
1. Summary	Special pilot workcamp to work with the refugees/ Immigrant students from Myanmar								
2. Background	This project is actively working for SDG 4 (Quality Education) and SDGs 10 (Reduced Inequalities), organized together with DALAA (International Volunteers for Social Development Association), Bunkyo university in Japan and BMWEC (Burmese Migrant Workers' Education Committee). Mae Sot in Thailand's Tak Province hosts numerous migrant schools for children of migrant workers from Myanmar, providing education with support from NGOs and other organizations. Ensuring stable educational opportunities at these migrant schools is considered crucial for reducing the number of children involved in child labor or crime. However, access to education for these children is currently significantly impacted. This is due to increased migration caused by political and social unrest in Myanmar, coupled with the reduction of learning center activities and decrease in teachers resulting from COVID-19. This workcamp, in cooperation with the Hsa Thoo Lei Foundation and BMWEC (Burmese Migrant Workers' Education Committee), will implement exchange activities with children at migrant schools, educational programs, and life support programs.								
3. Work	Volunteers will do 1) Exchange Program with high school students (same theme across approx. 3 schools), 2) Programs for younger students (English-based play and empowerment), 3) Music and sports activities and 4) School support (cooking assistance, charcoal making, campus improvement).

2. Background	This project is actively working for SDG 4 (Quality Education) and SDGs 10 (Reduced Inequalities), organized together with Malaysian Organization of Volunteer Exchange (MOVE) since 2018 in this place. MOVE is a workcamp NGO founded in 2006. Yayasan Chow Kit (YCK) was founded in 2011 to run the school providing education, cultural workshops, leisure activities and lunch to the children aged 6-18 who are not allowed to go to public schools due to the lack of citizenship. Many of them are refugees or immigrants from Myanmar, Indonesia, etc. while others have different backgrounds in their families such as poverty, drug addiction, child abuse, prostitution, etc. YCK operate in partnership with Ministry of Women and Child Welfare and got new rooms on the 3rd to 5th floors of the big building in 2025. The workcamps have been successful and in 2025, 59 vols. from Japan, Italy, Hong Kong and Spain joined 6 workcamps with creating great impact! You may wonder if the volunteering for short term can be useful for their education and even worry if they feel too sad and tired to repeat hi and bye. But children have got greatly motivated to study by having international big sisters/ brothers as one of their role models and felt happiness and encouragement by having reliable adult friends since they had been terribly neglected by the society.								
3. Work	Volunteers will be spilt into some small groups and assist the teachers for their classes of smaller children in the morning. In the afternoon, they can play and organize cultural activities with the children in the big room all together (e.g., dancing, games). Or sometimes, joined the workshops (music, sports, etc.) organized for the children by other volunteer group. Volunteers may sometimes have occasions to have no activities (e.g., national holidays), but alternative work such as supporting homeless people may be organized.								
4. Accommodation	Volunteers will stay in 2-3 rooms of the school (female and male are separated) and have simple breakfast to be provided by MOVE, school lunch and dinner in the outside restaurant. Sleeping bag is necessary (mat is also recommended since the floor is hard). No AC and simple condition, but safe water is provided and local style bath/ fridge are available.								
5. Study theme	Refugees and other disadvantaged children in each country. Local SDGs (2030 goals) of YCK

7. Location	The school is located in Chow Kit, Kuala Lumpur (with the guard man for 24 hours!).								
8. Terminal	Kuala Lumpur - Volunteers will meet at KL Sentral at 16:00 and need to arrive at the airport (KUL) by 14:00 on the first day and can leave the airport after 11:00 on the last day.								
9. Requirement	Very high motivation and responsibility to work with the disadvantaged kids and to respect local culture/ way. Adaptable to the simple conditions such as hot climate without using AC in the night and sleeping on the hard floor. Good manner to keep the places clean and proper, sensitive behaviors especially to the children (the guidance will be done by YCK).								
10. Participation fee	1,100 MYR (227 EUR by the rate on 2025 Nov. 3rd) for 14 days, 850 MYR (176 EUR) for 9 days including the weekend and 750 MYR (155 EUR) to be paid on your arrivals. 10% less for repeaters of MOVE workcamps or those from less expensive countries.								
11. Language	English (Malay is also welcomed!)								
12. Other	The local campleader will be a lady who was a student of YCK before! There might be also a co-leader from Japan. 1st week vols. 1. Summary	Assisting/ joining the English class and club activities of the very friendly local children and teen and working for building Youth Center in a small village with rich nature!								
2. Background	This project is actively working for SDG 4 (Quality Education) and SDGs 11 (Sustainable Cities and Communities), organized together with Phoudindaeng Youth Center (PYC) since 2009. PYC's main projects are running a school bus, teaching English in extracurricular classes, supporting the construction of a community center and establishing a library. Considering the increasing demands of villagers, PYC was officially established in 2007 which has played important roles for personal growth, life-long education and formation of leadership skills. PYC also keeps money little by little from the volunteers fee and sponsors the teachers' salary in the elementary school of the mountain connecting the children of 3 races (Lao, Mon and Khum) since the government neglect the school as well as youth employment from low income families, but more funds are needed (to buy a new van, etc.). In 2025, 3 workcamps were successfully organized with 15 vols. from Japan, Vietnam and Czech in addition to some local vols. It had been open only to Asian, but from 2025, it is open to all over the world!								
3. Work	Volunteers will do physical work in the morning such as construction/ maintenance of Youth Center and small gardening at Center (mostly planting flowers and trees for shade), and assist/ join English teaching class and club activities of traditional dance as well as playing with them (maybe organizing something!) in the afternoon as the after school activities.								
4. Accommodation	Phoudindaeng Youth Center. Sleeping on the floor dormitory bed (Sleeping bag is necessary), female and male are separated. Meals will be cooked by volunteers by turns. There are local markets near the village. Sometime dinner will be Vangvieng town.

6. Other activities	Going to the market, Basi Ceremony, Performance, Party, Optional excursion in the weekend to be organized and financed by the volunteers themselves (e.g., trekking, blue lagoon), etc.								
7. Location	Van Vieng is a famous tourist spot, but the workcamp is located in the rural agricultural village in Van Vieng district in the north part, surrounded by the river and mountains.								
8. Terminal	Vientiane. Volunteers need to arrive by 08:00 on the first day and can leave there after 18:00 on the last day. They can go to Van Vieng by the public bus that takes 4-5 hours, possibly together with other volunteers!

1. Summary	The rare international workcamp in Asia working with refugees! Let's have a precious time with the children:)								
2. Background	This project is actively working for SDG 4 (Quality Education) and SDGs 10 (Reduced Inequalities), organized together with Malaysian Organization of Volunteer Exchange (MOVE) since 2018 in this place. MOVE is a workcamp NGO founded in 2006. Yayasan Chow Kit (YCK) was founded in 2011 to run the school providing education, cultural workshops, leisure activities and lunch to the children aged 6-18 who are not allowed to go to public schools due to the lack of citizenship. Many of them are refugees or immigrants from Myanmar, Indonesia, etc. while others have different backgrounds in their families such as poverty, drug addiction, child abuse, prostitution, etc. YCK operate in partnership with Ministry of Women and Child Welfare and got new rooms on the 3rd to 5th floors of the big building in 2025. The workcamps have been successful and in 2025, 59 vols. from Japan, Italy, Hong Kong and Spain joined 6 workcamps with creating great impact! You may wonder if the volunteering for short term can be useful for their education and even worry if they feel too sad and tired to repeat hi and bye. But children have got greatly motivated to study by having international big sisters/ brothers as one of their role models and felt happiness and encouragement by having reliable adult friends since they had been terribly neglected by the society.								
3. Work	Volunteers will be spilt into some small groups and assist the teachers for their classes of smaller children in the morning. In the afternoon, they can play and organize cultural activities with the children in the big room all together (e.g., dancing, games). Or sometimes, joined the workshops (music, sports, etc.) organized for the children by other volunteer group. Volunteers may sometimes have occasions to have no activities (e.g., national holidays), but alternative work such as supporting homeless people may be organized.								
4. Accommodation	Volunteers will stay in 2-3 rooms of the school (female and male are separated) and have simple breakfast to be provided by MOVE, school lunch and dinner in the outside restaurant. Sleeping bag is necessary (mat is also recommended since the floor is hard). No AC and simple condition, but safe water is provided and local style bath/ fridge are available.								
5. Study theme	Refugees and other disadvantaged children in each country. Local SDGs (2030 goals) of YCK								
6. Other activities	Sightseeing around Kuala Lumpur city (café, night market, China town, shopping malls, etc.) in the evenings (but need to come back by 21:00!), optional trip in the weekend to be organized and financed by the volunteers themselves.

Adaptable to the simple conditions such as hot climate without using AC in the night and sleeping on the hard floor. 8. NICE's Visions & Actions on SDGs

[Back to MENU](#)

- NICE is actively working on SDGs initiated in/ together with NVDA! -

[SDGs \(Sustainable Development Goals\)](#) was approved at General Assembly of United Nations in 2015 Sep. It is very important that the world works together for the better future, but also important that each of us digests SDGs and see what is agreeable or not by our own visions. Then, we will strongly work/ cooperate with various stakeholders to achieve SDGs where we agree!

1. Make Local/ Project Goals (“Local SDGs”)

- ☺ **Long term goals of the communities and the projects** they have anyway regardless of SDGs
- ☺ **Different and not following from SDGs** (it is NOT to implement SDGs in the local level).
- ☺ This is based on their own visions/ needs by bottom up approach and **not only say, but also do!**

< Aims to make Local SDGs >

1. **Good for ourselves!** (make better plans together, stronger motivation & solidarity, get more vols)
2. **Good for the world!** (show another way of concrete goals, differently from UN with our actions)
3. **Good for the movement!** (share the visions and actions, raise recognition from the society)

< Where can we make the goals? >

Any place where you can make your goals such as **your international/ weekend workcamps, LMTV projects, schools, offices, seminars**, etc. Especially, this can be quickly and effectively **utilized in a study part (in the evening or a rainy day) or the on arrivals orientation** of your workcamps starting from now!

2. Make a NICE's (modified) version of SDGs

- ☺ This will be a **good opportunity** to discuss and share each and common vision for the future!
- ☺ We are **a colorful NGO**, so don't unite opinions and we also introduce minority's opinions.

Example of Local SDGs

Local SDGs (Sustainable Development Goals)

Onuma (Hokkaido), Japan

Made by: **IKEDA Makoto (Japan, local coordinator)**, **KAIZAWA Shinichiro (Japan, project coordinator in NICE)**, **10 vols in the workcamp**

Relevant themes in SDGs: **(6,15)** 1. Poverty 2. Hunger 3. Health 4. Education 5. Gender 6. Water 7. Energy 8. Work 9. Infrastructure 10. Inequality 11. Cities 12. Consumption 13. Climate change 14. Oceans 15. Forests 16. Justice 17. Partnership

Background situations

Though Onuma lake has been a popular tourism spot for a long time because of its beautiful scenery, it has been **polluted** by over use of agricultural chemicals in cattle farming and erosion from abandoned forests with alien trees. President of Cooperative has bought a forest and wants to revive it to original nature with native trees!

Goals in 2030

We would like to get the clean lake like 100 years ago where people can enjoy swimming and more various types of native fish and plants can be grown!

We also want the community with more active participation of all stakeholders such as young people, farmers, etc.

Tourists can enjoy the area in a more slow way not harming the nature and the farmers can keep cows without polluting.

As partial contribution in whole change!

Past actions & impact

We organize 2 weeks and 2 months workcamps since 2004 that **revived over 3 ha of forests by moving alien conifer trees** that disturb growth of other plants and animals and made water quality worse, **made 200 rafts with reeds every year** in the lake to purify the water and helped the research with some specialists. Onuma was registered by the world's Ramsar treaty thanks to the workcamps, the local host says. The projects also connected different people who did not work together.

New actions & impact

We will keep workcamps every year to create more and more impact to purify the lake with some new programs such as;

- * Promotion of using eco sponges to the locals
- * Hosting Longer term volunteers (e.g., 6 months)
- * Running eco-tourism with less negative impact

Personal actions!

- * Introduce to my friends by SNS.
- * Collect the fund for the materials.
- * Join the project again as LMTVs.
- * Link with the similar NGOs in my country!
