

UGANDA PIONEERS' ASSOCIATION (UPA)

MEDIUM AND LONG-TERM VOLUNTEER PLACEMENT PROJECTS 2026

INTRODUCTION

The Medium and Long-Term Volunteer Program (MLTV program) is an International Volunteer Exchange program that is run and managed by Uganda Pioneers' Association (UPA) through collaboration, partnerships and affiliation to credible voluntary service organizations. UPA has hosted international volunteers since its inception in 1989 and upholds volunteer exchange and intercultural cooperation as tools for promotion of community based development, intercultural understanding and youth participation.

The objectives of the MLTV program are to:

- Contribute to the development of community based social services
- Promote and improve natural and acquired skills useful to the community
- Promote and exchange cultures in order to create friendship and mutual understanding
- Encourage the youth as dynamic age group to take leading roles in development

UPA partners with organisations/institutions and projects that aim at the development of the local communities. These projects include; schools (primary and secondary), orphanages, hospitals, children with special needs and working with community based organisations and Non-Government Organisations.

Participants are required to pay a participation fee of Euro 500 (five hundred Euros) on arrival for a period of 1- 3 months and 100 Euros (One hundred euros) **in advance** for each additional month/s.

The fee covers pick up from the airport or bus terminal upon arrival in Uganda, on-arrival training (orientation), Volunteers' house maintenance, accommodation and other operational utilities like water, cooking gas, power, kitchen utensils and a monthly contribution for those living in host families, project evaluations and administration costs. Volunteers are advised to have a comprehensive study of our volunteers' guidebook to acquaint themselves with the dynamics of volunteering with UPA and our projects before making decision. <https://roundtripvolunteering.com/>

Cancellation of participation

Cancellation of participation before the project starts while in Uganda will attract a 50% refund. In case a volunteer cancels his/her participation during the project, no refund of any amount of the participation fee. This is because a lot of expenses are incurred in communication, airport pick up, orientation, prior preparations before the project and other logistics. However if a volunteer cancels his/her participation before arriving in Uganda, he will be given back the entire fee if payments were made prior to their arrival in the country

On-arrival Orientation:

Upon arrival, you will be given a 3 days orientation at the UPA office. UPA will share with you information about Uganda mainly covering history, cultures, economy, political situation and social aspects. It also includes a one day tour to Kampala, assisting you in getting the basic necessities for example SIM Card, Internet and bank services etc. and getting to know how the transport system works. More still, the volunteer undergoes through the orientation of UPA and its partners and programmes. After all that, UPA introduces the volunteer to his/her project.

Evaluation

During your placement on the project, there will be regular evaluations to check on you and your project performance. In addition to this, there are regular volunteer meetings to talk about your placement, your wellbeing and anything. Apart from that, the UPA office is always open for any concerns and you are always welcome anytime.

End of Projects

All volunteers joining our MLTV projects shall be required to submit a written report of their experience to UPA and a copy to the host project. Volunteers are also welcome to share their experiences with UPA during the final evaluations.

Accommodation

UPA has a volunteers' house for the international volunteers that can accommodate a reasonable number at a time. The volunteers sometimes have to share rooms with others. The house has basic facilities including a kitchen, running water, bathrooms and toilets. Apart from the volunteers' house, you there can be a possibility to stay with a host family. The host families are either in the same area with the volunteers' house and the UPA office or can be chosen close to your project.

Workload, Work schedules and Workplans

We would recommend a volunteer to come with a very open mind and be highly motivated, creative and innovative as not all projects will have the capacity to follow the stated activities, duties or tasks. Some projects run on very informal approaches without clear work plans or not very organized. The volunteer should take time and efforts also to discuss with the project managers on any new ideas he/she feels can contribute to the project.

Occasionally, workload and activities may get low at certain times or eventually the volunteer may become too busy. There is no guarantee that the volunteer will be fully occupied during all the time of stay but its depends on a given project. Activities may often fluctuate due to various factors in the project. Many projects do not have a sound financial base. Therefore volunteer expectations should not be too high and if anything does not workout as earlier planned this is the best time that a volunteer's creativity, innovation and patience are most called for and UPA can support them to change to an active.

About Uganda

Uganda is a beautiful country gifted by nature. Volunteers may take time off on weekends or after the project to visit National parks (lions, elephants, giraffes, kobs, buffalos etc), go white water rafting, visit the mountain gorillas and enjoy the Ugandan sun. Background	<p>Mengo Youth Development Link (MYDEL) is a nongovernment organization based in Kampala, the capital city of Uganda. It was founded in 2001 as a slum youth initiative under the patronage of Mr. Pascal Lutaya. Starting as a community based organization (CBO) during the outbreak of cholera and Ebola in many of the slum areas in Kampala, MYDEL initially focused on hygiene and health sensitization of the affected people, supported by local politicians and the community itself. Working in close collaboration with the local population and local leaders, MYDEL became aware of other community challenges, which included a high rate of HIV/AIDS infections, drug abuse, prostitution, child abuse, domestic violence and the marginalization of people with disabilities. In 2004 MYDEL was officially registered as an NGO and expanded its activities according to the needs assessment carried out in an early state of its operation. Following an early intervention approach, MYDEL decided to focus their programs on the most vulnerable children and youths from the slum community, most of whom being school dropouts and orphans.</p> <p>MYDEL's mission is the empowerment of this target group through education, sensitization and skills development to contribute to a sustainable poverty reduction among these marginalized communities.</p>
