2) How to Apply	(P 3)
3) Project List	(P 4)
4) General Qualification	(P 4)
6) Detailed Workcamps Information	(P 4-6)

What is MCE?

- **NGO/ NPO to organize workcamps and other voluntary projects in Mongolia**
- **Full member of NVDA (Network for Voluntary Development in Asia)**
- **Partner of ALLIANCE, SCI**

1) Brief History

When: MCE was established on January 11th, 2001 by an individual who had participated in the 3rd Training & Networking Workcamp of NVDA in Vietnam.

Why: Before 2000, there were no workcamp organizations or international voluntary service in Mongolia. However, there was much need for international voluntary projects to improve a Mongolian society. Through practical work projects, MCE hopes to encourage public awareness of Mongolia's social problems and promote local actions.

2) Aims

a) To create/ develop/ revive ecological, self sufficient and warm-hearted civilization.

We promote exciting voluntary actions by fresh ideas and mobility as a youth NPO, to shift the world with too much competition and expansion into more healthy one for both nature and people.

b) To encourage activities of NGO/NPOs and activation of local communities

We create opportunities to meet new people and to start new actions by involving many locals. We make bridges between isolated NPOs and local people, and invite youth to depopulated areas.

c) To promote global friendship, understanding and solidarity

We grow exchange naturally among world youth and local people through living, working, talking and laughing together. They can improve global views/ sensitivity and language/ planning skills.

3) Activities

- a) To organize international workcamps in Mongolia with local partners and people
- b) To send volunteers from Mongolia to workcamps
- c) To develop various networks of NGO/NPOs
- d) Promotion of NVDA common actions in the national and international level

4) Finance

a) We don't have any support from Mongolian Government and other International organizations. Running cost of MCE (staffs, offices, transportation, communication etc.) is managed by the participation fees of volunteers who join workCamps in Mongolia.

b) Project cost (food, accommodation, transportation etc.) of international workcamps in Mongolia is prepared by the fees from volunteers too.

Mongolian workCamps Exchange is always looking for good relations between youth organizations in the international and regional level

International workcamps by MCE

1) Introduction

We welcome you to join our workcamps, **sharing happy time and creating fresh new age together!** All campsites have nice nature, **blue sky** and warm people, so you will discover **nomadic life & culture** of Mongolia.

The common points of all workcamps are such as follows;

- a) Age limit** : From **18** (No maximum)
- b) Language** : **English** (Mongolian is not necessary, but we welcome your trying!)
- c) Insurance** : Vols should have their own insurance before arrive to the workcamp.
- d) Accommodations:** Mostly, we use GER (Mongolian traditional tent) or Summer house.
For all the projects in Ulaanbaatar volunteers will stay at apartment.
There're kitchen and toilet. For the all workcamps in Mongolia volunteers need to bring Sleeping bag.
- e) Study Part** : All workcamps have it to learn, discuss and plan better local/ global future!

2) How to apply and join the projects!?

<https://www.nuorisovaihto.fi/>

A: Applying through the partners!!

Volunteers have to apply **not directly to us, but through our partner Workcamp Organizations (WOs)** of their own countries **unless you live in Mongolia or in countries that have no partners.**

In this exceptional case, they need to send the application form to MCE.

B: How much should volunteers pay?

Volunteers have to pay the travel cost to/ from workcamps & the following **registration & participation fee** to partners & to MCE.

- a)** Partner WO's charging some registration fee from sending volunteers : **This depends of each partner ***
 - b)** Participation fee to MCE
(2 weeks project) : **250 USD** per a workcamp (or equivalent of MNT or Euro)
- For all the workcamps in Mongolia, we will manage pick up service by request of volunteers from/to airport or train station.**
Also we will provide free transportation to/from workcamp site for the first and last day of the workcamp.

* Most of Asian/ European/ North American partners are

C: The detailed information of the project

By **1-2 months before** the projects, volunteers will receive **"Information Sheets"** (details of the project, what to bring, the meeting point, how to get there, etc.) together with **"Acceptance Letter"** and **"MCE Volunteers' Guide"**, through the partner organizations.

D: Book the flights as soon as being accepted!

Don't wait for the Information Sheets, otherwise you may miss economical flights!
Workcamps start **in the morning of the first day**. And they finish **in the afternoon of the last day**.

So, we advise volunteers to arrive / leave Mongolia **at least a day before/ after** the projects because volunteers should not expect so much sightseeing during the projects.
(if you want to do it, please do it before/ after the workcamps!)

And it is **possible to stay in the cheap guest houses** (around 10-15\$ per night) together with volunteers in the same workcamp before/ after the workcamps! (For the details, please wait for the info.sheets!)

15) LIST OF INTERNATIONAL WORKCAMPS FOR 2024

Code	Name	Location	Dates	Type	Vols.
MCE/04	School-4	Ulaanbaatar	01/Apr – 14/Apr	KIDS/CULT	10
MCE/NICE 05	Greening Mongolia	Tuv province- Altanbulag	28/Apr – 11/May	AGR/CULT/ENVI	10
MCE/06	Eco farm planting	Tuv province- Altanbulag	25/May – 07/Jun	AGR/CULT/ENVI	10
MCE/07	Eco farming-1	Tuv province- Altanbulag	14/Jun – 27/Jun	AGR/CULT/ENVI	20
MCE/08	Eco farming-2	Tuv province- Altanbulag	27/Jun – 10/Jul	AGR/CULT/ENVI	20
MCE/09	Eco farming-3	Tuv province- Altanbulag	10/Jul – 23/Jul	AGR/CULT/ENVI	20
MCE/10	Eco farming-4	Tuv province- Altanbulag	23/Jul – 05/Aug	AGR/CULT/ENVI	20
MCE/11	Eco farming-5	Tuv province- Altanbulag	05/Aug – 18/Aug	AGR/CULT/ENVI	20
MCE/12	Eco farming-6	Tuv province- Altanbulag	18/Aug – 31/Aug	AGR/CULT/ENVI	20
MCE/13	School – 5	Ulaanbaatar	04/Sep - 17/Sep	KIDS/CULT	7
MCE/14	School-6	Ulaanbaatar	23/Sep-06/Oct	KIDS/CULT	7
MCE/15	School-7	Ulaanbaatar	07/Oct - 20/Oct	KIDS/CULT	7

ENVI = Environment	CULT = Cultural projects	PHYS = Work with physically disadvantaged
ARGI = Agriculture	SOCI = Social work (*)	MENT = Work with mentally disadvantaged
CONS = Construction	ELDE = Work with elderly	KIDS = Work with children/ orphans
PEACE = Peace	RENO = Renovation	NASS = North and South Solidarity

* "Social work" means work with other types of people besides ELDE, PHYS, MENT and KIDS (e.g. Refugee, Homeless) OR work with various types of such people with special needs.

4) General Qualification

- Best motivation for the voluntary work** (special good skills and power are not necessary)
- Responsibility to keep rules** of MCE & the partners and **cooperation** to run the workcamps
- Best efforts to understand and respect cultures** both of the hosts and other volunteers
- Open mind to make friends** with trying to speak English (in the groups) and the local language
- To adapt and enjoy simple conditions** of the living such as food and accommodation

Though it'd be very funny and dramatic time for you, if your motivation is **only for enjoying holidays, please don't apply** and do just travel. If it is more **for voluntary service** to make a better world and **friendship** with local people and other volunteers, you are **super welcome!!**

5) Detailed Workcamps Information

After the **backgrounds** (partners, aims and histories) of the workcamps;

W: Voluntary Work

L : Location of the Workcamps

S : Study Themes

T : Terminal (The closest big international airport)

P : Program of the Activities

Q : Additional Qualifications

A : Accommodation

X : Other Useful Information including Additional Fee

* For Accommodation, **CV** = Cooked by Volunteers **MP** = Meals are Provided.

SB! = Sleeping Bag is necessary **SBN** = Sleeping Bag is Not necessary

MCE/04 School-4 (Ulaanbaatar) 01/Apr-14/Apr KIDS/EDU/CULT Vol-7

Will be organized together with MCE (Mongolian workCamps Exchange) and one of the secondary schools in the suburb of Ulaanbaatar, Mongolia. Mongolia has 12 years Secondary school system. Until 1990 kids/students were studying only Russian as a second language. But since 1990 we changed our political and economical system. Since this time we have chance to study the 3rd language. But English studying is still very poor and MCE is always focusing to improve it.

W: The main work will be to **teach English, songs, and games** to the kids which can be advantageous for them to find jobs and also to exchange with international volunteers, in the future. Also, some renovation works. We may also do some workshops with them for Asian common actions of NVDA for forests.

S: The future plan of international workcamps in Mongolia and International English teaching method. **Bring** some info

P: Cultural exchange program, excursions, etc.

A: Youth hostel. Shared room. Need to bring a sleeping bag. Cooked by volunteers. The shower will be available every day.

L: Ulaanbaatar. Half of the population in the country (3.2 million) live in this capital city. Don't worry about the weather, we will work and live warm inside.

T: Ulaanbaatar, Chinggis Khaan International airport or International train station of Ulaanbaatar

Q: To like **kids** and **be flexible/ adaptable**.

X: The additional fee of **250 USD** (or equivalent amount of MNT or Euro by current rate of Mongolian bank) should be paid on your arrival directly.

MCE/NICE-05 Greening Mongolia (Ulaanbaatar and Buhug river) 28/Apr-11/May ENVI Vol-10

Organized together with NICE (Never-ending International workCamps Exchange) and supported by Greening Asia fund since 2002. The forest problem is serious also in Mongolia. Before 1990, the forests covered 10% of the land, but 7% today. It's caused by cutting trees without any control, forest fire, and global warming. Another side takes a long time to grow trees in Mongolia and May and the middle of October is the only season to plant trees in Mongolia.

W: We will plant trees in Mongolian workCamps Exchange`s camp and some other places.

This is the only season in Mongolia to plant trees. There are increasing activities by some

organizations to plant trees but it takes a hundred or more years to be grown, so we should also join this movement by global power! Part of Greening Asia

S: Any good experiences for tree planting and the future plan of international workcamps in Mongolia and Greening Asia. **Bring** some info.

P: Cultural exchange program, excursions, etc.

A: GER (Mongolian traditional tent) or house. **Very warm sleeping bag!** Cooked by volunteers. Shower is available all the time

L: Ulaanbaatar. Half of the population in the country (3.2 million) live in this capital city. The temperature will be about 10-20 C, But be careful sometimes the weather will be changed a lot. Sunny, sometimes rainy, and windy. Buhug river is located 45 km far from Ulaanbaatar.

T: Ulaanbaatar, Chinggis Khaan International airport or International train station of Ulaanbaatar

Q: To like planting work and simple nomadic life. Mongolian speakers are welcome!

X: The additional fee of 250 USD (or equivalent amount of MNT or Euro by current rate of Mongolian bank) should be paid on your arrival directly.

MCE/06 Eco farm planting (Tuv-Altanbulag) 25/May-07/Jun AGRI/ENVI Vol-10

Since 2000 we have had volunteers around the world joining our summer programs which were designed around building sustainable vegetable farming facilities. Over the years we have learned that developing eco-friendly and sustainable farming facilities does require a lot of research on improving our farming methods, learning the best practices from local farmers on improving the crop quality and perseverance despite the setbacks which were imminent in harsh Mongolian continental climate, with long, frigid winters and short, warm summers.

We are hoping to transform our eco-friendly vegetable farming facility into a sustainable organic farming training center which teaches the low income families how to grow healthy greens on their own. Organic fruits and vegetables are sparse and expensive in Mongolia which makes them unaffordable for many low income families. We are planning to donate any crops from our facilities to families in need in addition to providing them with the knowledge of how to grow their own crops.

W: The main works are planting vegetables such as potatoes, carrots, radishes, etc at the eco-farming camp. Also, volunteers may work on making fences to protect the farm, etc. Quite tiring but let's enjoy it.

S: Eco farming methods/know how of other countries. The future plan of international workcamps etc.

P: Cultural exchange program, excursions, etc.

A: Summer house or Mongolian traditional tents which is GER (traditional tent). **SB!** CV with a local staff.

L: 45 km from Ulaanbaatar. Place name is "BUHUG". The sight is just unbelievably beautiful, typical Mongolian plain.

T: Ulaanbaatar, Chinggis Khaan International airport or International train station of Ulaanbaatar

Q: To like farming/physical works and be flexible/ adaptable. Mongolian speakers are welcome!

X: The additional fee of **250 USD** (or equivalent amount of MNT or Euro by current rate of Mongolian bank) should be paid on your arrival directly.

MCE/07 Eco farming-1 (Tuv-Altanbulag) 14/Jun-27/Jun AGRI/KIDS Vol-10

Since 2000 we have had volunteers around the world joining our summer programs which were designed around building sustainable vegetable farming facilities. Over the years we have learned that developing eco-friendly and sustainable farming facilities does require a lot of research on improving our farming methods, learning the best practices from local farmers on improving the crop quality and perseverance despite the setbacks which were imminent in harsh Mongolian continental climate, with long, frigid winters and short, warm summers.

We are hoping to transform our eco-friendly vegetable farming facility into a sustainable organic farming training center which teaches the low income families how to grow healthy greens on their own. Organic fruits and vegetables are sparse and expensive in Mongolia which makes them unaffordable for many low income families. We are planning to donate any crops from our facilities to families in need in addition to providing them with the knowledge of how to grow their own crops.

W: Main works are helping at eco farm trough our work such as remove the weeds in the field, working in the greenhouse, making water canal for farm, making compost, etc. Quite tiring but let's enjoy it.

S: Eco farming methods/know how of other countries. The future plan of international workcamps etc.

P: Cultural exchange program, excursions, etc.

A: Summer house and Mongolian traditional tents which is GER (traditional tent). Need to bring Sleeping Bag! Cook by volunteers with local staff.

L: 45 km from Ulaanbaatar. Place name is "BUHUG". The sight is just unbelievably beautiful, typical Mongolian plain.

T: Ulaanbaatar, Chinggis Khaan International airport or International train station of Ulaanbaatar

Q: To like farming/physical works and be flexible/ adaptable.

X: The additional fee of **250 USD** (or equivalent amount of MNT or Euro by current rate of Mongolian bank) should be paid on your arrival directly.

MCE/08 Eco farming-2 (Tuv-Altanbulag) 27/Jun-10/Jul AGRI/KIDS Vol-10

Since 2000 we have had volunteers around the world joining our summer programs which were designed around building sustainable vegetable farming facilities. Over the years we have learned that developing eco-friendly and sustainable farming facilities does require a lot of research on improving our farming methods, learning the best practices from local farmers on improving the crop quality and perseverance despite the setbacks which were imminent in harsh Mongolian continental climate, with long, frigid winters and short, warm summers.

We are hoping to transform our eco-friendly vegetable farming facility into a sustainable organic farming training center which teaches the low income families how to grow healthy greens on their own. Organic fruits and vegetables are sparse and expensive in Mongolia which makes them unaffordable for many low income families. We are planning to donate any crops from our facilities to families in need in addition to providing them with the knowledge how to grow their own crops.

W: Main works are **helping at eco farm trough our work such as remove the weeds in the field, working in green house, making water canal for farm, making compost etc.** Quite tiring but **let's enjoy it.**

S: Eco farming methods/know how of other countries. The future plan of international workcamps etc.

P: Cultural exchange program, excursions, etc.

A: Summer house and Mongolian traditional tents which is GER (traditional tent). Need to bring a sleeping bag! Cooked by volunteers with local staff.

L: 45 km from Ulaanbaatar. Place name is "BUHUG". The sight is just unbelievably beautiful, typical Mongolian plain.

T: Ulaanbaatar, Chinggis Khaan International airport or International train station of Ulaanbaatar

Q: To like farming/physical works and be flexible/ adaptable.

X: The additional fee of **250 USD** (or equivalent amount of MNT or Euro by current rate of Mongolian bank) should be paid on your arrival directly.

MCE/09 Eco farming-3 (Tuv-Altanbulag) 10/Jul-23/Jul AGRI/KIDS Vol-20

Since 2000 we have had volunteers around the world joining our summer programs which were designed around building sustainable vegetable farming facilities. Over the years we have learned that developing eco-friendly and sustainable farming facilities does require a lot of research on improving our farming methods, learning the best practices from local farmers on improving the crop quality and perseverance despite the setbacks which were imminent in harsh Mongolian continental climate, with long, frigid winters and short, warm summers.

We are hoping to transform our eco-friendly vegetable farming facility into a sustainable organic farming training center which teaches the low income families how to grow healthy greens on their own. Organic fruits and vegetables are sparse and expensive in Mongolia which makes them unaffordable for many low income families. We are planning to donate any crops from our facilities to families in need in addition to providing them with the knowledge how to grow their own crops.

W: The main work is helping at the eco farm through work such as removing the weeds in the field, working in the greenhouse, making a water canal for the farm, making compost, etc. Quite tiring but let's enjoy it.

- S:** Eco farming methods/know how of other countries. The future plan of international workcamps etc.
- P:** The cultural exchange program, excursions will be organized optionally during the free days of the workcamp
- A:** Summer house and Mongolian traditional tents which is GER (traditional tent). Need to bring a sleeping bag! Cooked by volunteers with local staff.
- L:** 45 km from Ulaanbaatar. Place name is "BUHUG". The sight is just unbelievably beautiful, typical Mongolian plain.
- T:** Ulaanbaatar, Chinggis Khaan International airport or International train station of Ulaanbaatar
- Q:** To like farming/physical work and being flexible/ adaptable.
- X:** The additional fee of **250 USD** (or equivalent amount of MNT or Euro by current rate of Mongolian bank) should be paid on your arrival directly.

MCE/10 Eco farming-4 (Tuv-Altanbulag) 23/Jul-05/Aug AGRI/KIDS Vol-20

Since 2000 we have had volunteers around the world joining our summer programs which were designed around building sustainable vegetable farming facilities. Over the years we have learned that developing eco-friendly and sustainable farming facilities does require a lot of research on improving our farming methods, learning the best practices from local farmers on improving the crop quality and perseverance despite the setbacks which were imminent in harsh Mongolian continental climate, with long, frigid winters and short, warm summers.

We are hoping to transform our eco-friendly vegetable farming facility into a sustainable organic farming training center which teaches the low income families how to grow healthy greens on their own.
