

UGANDA PIONEERS' ASSOCIATION

YOUTH VOLUNTARY SERVICE ORGANIZATION FOR NATIONAL DEVELOPMENT AND INTERNATIONAL
CO-OPERATION

MEDIUM AND LONG-TERM VOLUNTEER PLACEMENT PROJECTS 2024

INTRODUCTION

The Medium and Long-Term Volunteer Program (MLTV program) is an International Volunteer Exchange program that is run and managed by Uganda Pioneers' Association (UPA) through collaboration, partnerships and affiliation to credible voluntary service organizations. UPA has hosted international volunteers since its inception in 1989 and upholds volunteer exchange and intercultural cooperation as tools for promotion of community based development, intercultural understanding and youth participation.

The objectives of the MLTV program are to:

- Contribute to the development of community based social services
- Promote and improve natural and acquired skills useful to the community
- Promote and exchange cultures in order to create friendship and mutual understanding
- Encourage the youth as dynamic age group to take leading roles in development

UPA partners with organisations/institutions and projects that aim at the development of the local communities. These projects include; schools (primary and secondary), orphanages, hospitals, children with special needs and working with community based organisations and Non-Government Organisations.

How to participate:

Participants are required to pay a participation fee of Euro 500 (five hundred Euros) on arrival for a period of 1- 3months and 80 Euros (eighty Euros) **in advance** for each additional month/s.

The fee covers pick up from the airport or bus terminal upon arrival in Uganda, on-arrival training (orientation), Volunteers' house maintenance, accommodation and other operational utilities like water, cooking gas, power, kitchen utensils and a monthly contribution for those living in host families, project evaluations and administration costs. Volunteers are advised to have a comprehensive study of our volunteers' guidebook to acquaint themselves with the dynamics of volunteering with UPA and our projects before making decision. <https://roundtripvolunteering.com/>

Cancellation of participation

Cancellation of participation before the project starts while in Uganda will attract a 50% refund. In case a volunteer cancels his/her participation during the project, no refund of any amount of the participation fee. This is because a lot of expenses are incurred in communication, airport pick up, orientation, prior preparations before the project and other logistics. However if a volunteer cancels his/her participation before arriving in Uganda, he will be given back the entire fee if payments were made prior to their arrival in the country.

On arrival Orientation:

Upon arrival, you will be given a 3 days orientation at the UPA office. UPA will share with you information about Uganda mainly covering history, cultures, economy, political situation and social aspects. It also includes a one day tour to Kampala, assisting you in getting the basic necessities for example SIM Card, Internet and bank services etc. and getting to know how the transport system works. More still, the volunteer undergoes through the orientation of UPA and its partners and programmes. After all that, UPA introduces the volunteer to his/her project.

Evaluation

During your placement on the project, there will be regular evaluations to check on you and your project performance. In addition to this, there are regular volunteer meetings to talk about your placement, your wellbeing and anything. Apart from that, the UPA office is always open for any concerns and you are always welcome anytime.

End of Projects

All volunteers joining our MLTV projects shall be required to submit a written report of their experience to UPA and a copy to the host project. Volunteers are also welcome to share their experiences with UPA during the final evaluations.

Accommodation

UPA has a volunteers' house for the international volunteers that can accommodate up to 18 volunteers at a time. The volunteers sometimes have to share rooms with others. The house has basic facilities including a kitchen, bathrooms and toilets. Apart from the Volunteers' house, you can choose to stay with a host family. The host families are either in the same area with the Volunteers' house and the UPA office or can be chosen close to your project. Staying with a host family gives you the chance to get in touch with the Ugandan cultures on a different level than staying in the guesthouse among other international volunteers, even though the standard of living might be more basic than in the Volunteers' house.

Workload, Work schedules and Workplans

We would recommend a volunteer to come with a very open mind and be highly motivated, creative and innovative as not all projects will have the capacity to follow the stated activities, duties or tasks. Some projects run on very informal approaches without clear work plans or not very organized. The volunteer should take time and efforts also to discuss with the project managers on any new ideas he/she feels can contribute to the project.

Occasionally, workload and activities may get low at certain times or eventually the volunteer may become too busy. There is no guarantee that the volunteer will be fully occupied during all the time of stay. Activities may often fluctuate due to various factors in the project. Many projects do not have a sound financial base. Therefore volunteer expectations should not be too high and if anything does not workout as earlier planned this is the best time that a volunteer's creativity, innovation and patience are most called for.

About Uganda

Uganda is a beautiful country gifted by nature. Volunteers may take time off on weekends or after the project to visit National parks (lions, elephants, giraffes, kobs, buffalos etc), go white water rafting, visit the mountain gorillas and enjoy the Ugandan sun. ANGEL'S CENTER FOR CHILDREN WITH SPECIAL NEEDS

PROJECT CODE: UPA/MLTV/13

Background	<p>Angel's center for children with special needs was formed after our experience in raising a child with Down syndrome. Three years of raising Abryl opened our eyes to the constraints of raising a child with special needs. In 2012 ACCSN was registered with Wakiso district to operate as a community Based Organization to provide a space of services for children with special needs (Reg No: WCBO/1131/12). A critical service is strengthening the capacity of families to cope with raising children with development challenges.</p> <p>Vision: A Society which integrates children with special needs to fully realize their potentials.</p> <p>Mission: To be a voice and to break the silence of disability in communities, through increasing access to information and service delivery.</p> <p>We need to give disability a "human face" despite the challenge these children remain beautiful, lovely and important to the social network of Society.</p> <p>Angel's center has currently an enrollment of 30 children from the ages of 2-12years with different disabilities that range from Down syndrome, cerebral palsy, autism, mental retardation and communication disorders.
