

NOTE REGARDING TRAP MIXED TEAM EVENT!!

The Trap mixed team event is conducted according to the ISSF new provisional rules published 6th of July (approx. one week ago). A copy of the rules can be found in your pigeon box.

Unfortunately, we do not have new chips for the trap boxes, which means that we cannot follow the rules regarding target distribution during the semifinal stage. Target distribution will be that of a normal 25 target trap round with two athletes quitting after 15 targets.
