

Martta Club of Kuusa

A strong association, over 70 years old, where we work and learn together different things like cooking, housekeeping, gardening and handicrafts . In our activities, you get to know new people and get the opportunity to participate and make your own impact. Our values are the joy of working together, sustainable choices and openness.

Something we do:

Last autumn we dyed woollen yarns with natural colors.

We teach small children to cook.

The youngest and the oldest Martta Club member hand in hand.

Marttas in a cooking course.
