

Dog s. 11.4.2021 F1-pentue (cockerspanieli) i. Ladecour Bevis, e. Czuprynka Bursztynowy Zakatek	Critics
R1 MILFEDDYG UUDEN AJAN AAMUNRUSKO ER35237/21, narttu	5 years of age. Shows a little bit square. Feminine head with good proportions. Likes to carry ears low with good shape and long feathers on the ears. A bit too much lip. In body shows a racy type. Open angulations in front and rear. Elbows under the chest. Fitting bone. Shows a roaching back both standing and in movement. Movement a bit upwards. Nice behavior. Good coat.
R2 MILFEDDYG UUDEN AJAN KAJASTUS ER35237/21, uros	5 years. Sturdy built male. Tall in size. Masculine broad head with good proportions. Slightly low carried ears with rich feathers. Ears are a little big, round with a lot of feathers. Beautiful dark almond shape eye. Strong muzzle with too much lips. Good scissor bite. A bit cheeky. Sturdy built body. Good proportions but well oversized. Good angulations in front and rear. Sturdy bone. Can have a little more depth in the chest. He roaches his back in movement and standing. A bit steep pelvis. Enough angulations in front and rear. Good coat. Enough feathers. Nice temperament. Very friendly. Black and white with ticking.
R3 MILFEDDYG UUDEN AJAN KEVÄTVERSO ER35243/21, narttu	5 years. Nearly square body proportions. Little bit to tall. Head with good proportions though stronger muzzle and a bit cheeky under the eyes. Almond shaped eyes. Correctly set and shaped ears of good proportions with heavy curtains. With lovely kooiker expression. Forehand placed a bit too much to the front. Good developed chest. Nice bone structure. Good angulations in front, moderate in the rear with a steep pelvis. Could use more stability in movement. Moves with a good tail action on the move. In behavior a bit shy but friendly.
R4 MILFEDDYG UUDEN AJAN RUUSUNNUPPU ER35239/21, narttu	5 years. Good size and proportions. A bit stretched. Head with good proportions. Shows little bit too much lip. Almond shaped eyes. Correctly shaped ear but big with a lot of feathers. Scissor bite. Forehand is placed a bit to the front. Roached back both in standing and in movement. Good angulations in front. Moderate in the rear. Steep pelvis. Elbows are lower than the chest. Fitting bone structure. Needs more development in chest. Curly tail in the movement. Lovely behavior.
R5 MILFEDDYG UUDEN AJAN SARASTUS ER35242/21, narttu	5 years. Good size and proportions. Strong muzzle with a bit too much lip. Feminine head. Good teeth. Ears well set and a bit rounded. Good body proportions. Lovely eyes. Very young body developments. Body could be developed a bit more in body and chest. Good fore chest. Elbows are not close to the chest. Fitting but a little bit strong bone. With feet eastie westie. Sloping topline with a bit steep pelvis. Smooth coat. Enough feathers. Some ticking in the white and the colour is black and white. Lovely temperament.

Total	F1 combination in which we can recognize a lot of qualities of the kooikerhondje. Muzzle is often too strong and they also show a little bit too much lip. In body correct proportions but all show a steep pelvis and some a roaching back. Correct nearly square body proportions. Male looks way too strong for the breed.

Dog – F2 s. 23.6.2024 F2-pentue i. Mendikan Inovi-lpa Binja, e. Milfeddyg Uuden Ajan Kevätverso	Critics
R6 MILFEDDYG WOIKKERIN AJATTELEVA AAPO ER40293/24, uros	Almost 2 years of age. A real kooikerhondje but then in black and white. Feminine breed specific head with good proportions. A bit too much stop. Good strong muzzle and underchin and chin. Could be dryer in the dewlaps. Good shape size and placing of ears. But ears rich in feathering. Well built body with good proportions. Good length of legs. Good angulations in front and rear. Fitting bone but feet are eastie westie. Good spring of ribs. Good forechest but open in front. Upper arm a bit too steep. Good pelvis. Typical tail action but highly carried in movement. Turns out elbows in movement.
R7 MILFEDDYG WOIKKERIN ETEVÄ EERO ER40294/24, uros	Catalog number 19: Young boy of almost 2 years old. Very young for age. Very friendly face with good proportions and nice expression. Good scissor bite. Correct ears with nice earrings. Good propositions in body which is still fully in development. Very well angulated all around. Needs to mature more in chest depth. Very youthly in movement. Needs more time to mature all over. Friendly dog. EH4
R8 MILFEDDYG WOIKKERIN TAITAVA TIMO ER40295/24, uros	Handsome kooikerhondje. 2 years of age. Lovely kooikerhondje head and very typical expression. Lovely kooiker ears with rich featherings. Good proportions in the body. Openly angulated in front and back with sufficient spring of rib. Fitting bones. Parallel front. Good bone. Moves like a kooiker. Lovely behavior. A true kooikerhondje in appearance except for the colour.
R9 MILFEDDYG WOIKKERIN TOUHU TUOMAS ER40297/24, uros	Tall guy. 2 years of age. Musculline head. A bit low placed ear. Lovely eyes with alert expression. Strong muzzle. Good dentition. Well-built body with good angulations in front and rear. A bit to sloop in pelvis. Sloping topline. Good forechest. Good spring of ribs. Moves with lots of enthusiasm but can have a little more drive in the back. Good coat and feathers. Well behaved with a wagging tail.
Total	We are very happy with these F2 offspring to see so much kooiker quality so fast. We see true kooikers: 1 in colour and another in type almost excellent.

Dog – F2 s. 20.8.2024 F2-pentue	Critics

i. Estaika's Xero Xantana e. Milfeddyg Uuden Ajan Sarastus	
R10 ESTAIIKA'S AD ASTRA ER42606/24, uros	22 months old female with good size and proportions. Typical head shape. Well set a bit fleshy ears. Lovely dark eyes with good expression. Scissor bite. Good depth of chest. Well developed body with good angulations. Elbows close to the chest. Good legs and feet. A bit sloping pelvis. Nice bone. Good coat and feathers. In behavior a little bit uncertain. Curly tail in movement. Needs more confidence.
R11 ESTAIIKA'S AD INFINITUM ER42610/24, uros	Sturdy built male. 22 months of age. Masculine head with a bit broad skull. Good stop. Strong muzzle. Scissor bite. Good lips. Well set ears with good feathers. Nice dark eye with typical expression. Well built sturdy body with good angulations in front and rear. A very typical kooiker in forechest. bit steep pelvis. Good spring ribs. Elbows close to the chest. Fitting bone structure. Good top und underline. Good coat and feathers. Curls his tail in movement.
R12 ESTAIIKA'S ALEA IACTA EST ER42609/24, uros	Catalog number 15: Strongly developed boy of almost 2 years old. Strong male head with good proportions. Strongly developed muzzle. Correct scissor bite. Friendly expression. Correct ears with a lot of curtain. Flowing topline. Correctly set tail. Little bit happy carried in movement. Slightly long in loin. Strong bone. Very well angulated. Moves well but heavily. Rich coat with nice colouring. Very well presented. EH3
R13 ESTAIIKA'S AUDEAMUS ER42607/24, uros	Catalog number 16: 22 month old boy. Very friendly expression. Good proportions in the head that are only slightly disturbed by the wider blaze. Serious eyes. Correct scissor bite. Correct ears with rich earrings. Correct topline. Can carry his tail correctly but likes to show it off when he sees other dogs. Rounded rib cage. Turns out his elbows because of that. From the side nicely angulated with good fitting bones. Slightly longer in the loins. Movement ok but wide in front. Very well presented. Friendly dog. Because of the type excellent. ERI2
Total	22 months. stevige honden. Let op de staarten en sterk hellende bekkens en grof bone.

Dog s. 3.9.2025 F2-pentue i. Erno Z Labskyh Piskovcu, e. Milfeddyg Uuden Ajan Ruusunnuppu	Critics
R14 PEUKALONIITYN BARBERRY ER42266/25, uros	Catalog number 11: 9 months young boy who is still fully in development. Young male head with slightly rounded eye. Expression is slightly disturbed because he doesn't have a blaze. Correct proportions in the head. Correct scissor bite. Ears correct with earrings. Flowing topline. Equally angulated in front and behind. Still in development in his chest and therefore loose in movement but flows

	very easily through the ring. Correct coat in development. Friendly but slightly shy in the ring. Very well presented. EH
R15 PEUKALONIITYN BEARBERRY ER42264/25, uros	Catalog number 12: 9 months young boy. Very much a big puppy in appearance. Young male skull with good proportions. Misses filling under the eyes. Correct scissor bite. Correct ears with earrings. Flowing topline. Slightly stretched in the loin. Correct tailset and carriage. Very nicely angulated all around and for age well developed in chest. Can move very nicely with correct drive. Pretty coat in development. Despite his age a very promising young male. ERI4
R16 PEUKALONIITYN BILBERRY ER42265/25, uros	Absent
R17 PEUKALONIITYN BLACK CHERRY ER42260/25, narttu	9 months old female. Black and white. Tall girl with almost square body proportions. Typical kooiker head. Unfortunately, incorrect bite. One upper inserted behind the under teeth. Nice almond shaped dark eyes with good expression. Well set ears with good form and correct feathering. Good lips. Good proportions in the body. Open angulations in the front. Steep pelvis. Enough angulations in the rear. Fitting bone structure a bit open in front. Needs to develop more in chest. Moves ok with enough stride from the rear. Curly tail.
R18 PEUKALONIITYN BLACKCURRANT ER42263/25, uros	Sturdy built male. Only nine months of age. Masculine head with good proportions. Good eyes. Shows a bit lip. Well set little bit big fleshy ear with enough feathers. Equally angulated in front and rear. Fitting bone. Steep pelvis. Moves on his front quarters. Legs strength in the hind with a curly tail.
R19 PEUKALONIITYN BLACK GRAPE ER42262/25, uros	Too tall to be a small sporting dog. Masculine head with good proportion. A groove in his skull which disturbs his expression. Unfortunately, 2 teeth under fore bite. Well set ears with good feathers. Good eyes. Square body proportions with. Open angulations in front and rear. Sloping topline. Goes with short pace and misses strength in the front and drive in the back.
Total	Much diversity in this litter. From elegant to strong bone structure. Bare in mind the built of the pelvis. Two offspring in the correct colour. In head type all kooikers. Some with a little bit more lip. Bare in mind the bites. Two offspring with dental errors.

Dog – F1 Poedel s. 23.4.2023 F1-pentue (keskikokoinen villakoiria) i. Jumparound As Mad As A Hatter, e. Damliers Odette	Critics
R31 s. 23.4.2023 F1-pentue (keskikokoinen villakoiria) i. Jumparound As Mad As A Hatter, e. Damliers Odette	3 years old. Nearly square body proportions. Masculine head with round eye. A bit low set ears with rounded shape. Because he is not so comfortable we are very careful. Good stop. Good proportions in the head. Short neck. Very straight upperarm. Correct spring of rib. Tight underline. Very steep pelvis. Very long thighbone and short hawk. Tail set. Much tension in the tip of the tail. Carries tail in a curl over the back in movement. Moves like a locomotor. Friendly when familiar.

Dogs – F2 sheltie s. 31.7.2025 F2-pentue i. Cavalriina's Salsa Sortesj, e. Dina	Critics
R21 PEETU'S FASUPALA ER38090/25, narttu	Absent
R22 PEETU'S FAZERFAMI ER38092/25, narttu	10 months old lady with good nearly square body proportions and good length of legs. Feminine head with a bit round skull. Ears good be a little higher and closer to the head. Tipping ears. Deep stop. Good eye. Muzzle a bit short and snipy. Scissor bite. Sloping topline with a sweeping loin. Good underline. Good legs. Small feet. Good spring of ribs. Enough angulations in the front, moderate in the rear with a sloping pelvis. Good feathers with a lot of breaches and a bushy tail. Perky movement. Could have more confidence. Does not like to be touched by the judge.
R23 PEETU'S FAZERIINA ER38091/25, narttu	10 months of age. Small size. Slightly longer than high. Nearly square body proportions. Feminine head. Small head compared to the body. Ear set good but too strong oracle, so ears are worn too much from the head. Deep stop. Small muzzle. Protruding eyes. Good bite. Could have more filling under the eyes. Surprisingly well-developed body with good angulations. In front and rear a bit too much bending in the knee. Moves with short steps. Curly tail Narrow in the rear and open in the front. Good behavior.
R24 PEETU'S FAZERKARL ER38089/25, uros	Catalog number 10: Young boy of 10 months old who has already reached the maximum size. Male puppy face with friendly expression. Skull should develop more in with. Correct scissor bite. Correct ears with developing earrings. Body fully in development. Flowing topline. Good tailset and carriage. Chest still flat. At the moment more straight

	in front than behind. Long bones. Moves very easily but loosely according to age. Friendly ring presence. Very well presented. EH
R25 PEETU'S FAZERMINT ER38093/25, narrttu	10 months old female in everything. Almost square body proportions. Feminine head. Good skull and elegant. Correctly shaped eye but slightly protruding from the skull. Needs more filling under the eyes. Muzzle needs more strength. Good scissor bite. Small but typical shape of the ears. With earrings. Ears carried somewhat broadly from the skull. Sloping topline. Good underline. Little forechest. Straight upperarm. Enough spring of rib but needs to drop more in chest. Sloping pelvis. Long thigh, short hawk. Stands slightly cowhawked in the back. Curly tail. Perky movement. Little reach and drive. Lacks substance. Loose in elbow.
Total	Despite the sheltie delivered 25% of the genes this is the dominant image in this F2 litter visible. Be mindful of dwarfism in the head with the protruding eyes. Nearly square body proportions. Much diversity in development in the body. Be mindful of the temperaments.

Dogs F1 phalene s. 24.8.2022 F1-pentue (phalene) i. Jarambo Tomera Tauski, e. Milfeddyg Uitgelezen Pepinka	Critics
R26 MILFEDDYG LAMPRONIA CAPITELLA ER48291/22, narrttu	Small young lady of almost 4 years old with a very rich coat. Small feminine head with a deep stop. Round eyes. Could have little bit more filling under the eyes. Muzzle can be stronger. Slightly higher set ears. Broadly carried ears but correctly shaped ears. Some white in

	the coat of the right ear. Good length of legs. Almost square body proportions. Good angulations in front and rear. Strong loins. Too much knee angulation and a steep pelvis. Proudly high carried tail. Moves heavier than she is.
R27 MILFEDDYG LAMPRONIA FUSCATELLA ER48292/22, narttu	Small young lady of almost 4 years of age with square body proportions. Small head with round skull. Deep stop. Rounded eyes. Muzzle small and could be stronger. Protruding eyes. Correctly shaped ear but set on a little low. Needs more depth of chest. Slightly rounded rib so the elbows are not close to the body. Broad in front. Good topline. Steep pelvis. Good length of legs. Just enough angulation in the knee. Good coat structure good in foundation but out of coat at the moment which makes her look more like a kooiker. Moves with short step. Pounding and can have more power in the rear and stability in the front.
R28 MILFEDDYG LAMPRONIA LUZELLA ER48290/22, narttu	Catalog number 68: Sweet little girl, almost 4 years. Good size, sturdy built body. Could be little higher on her legs. Bit round in skull, deep stop, scissor bite. Beautiful dark eyes. Strong neck. Good angulation front & rear. Good parallel legs. Strong loins. Good coat. Nice feathers. Moves with good stride & rolls her tail in a spiral. Good behaviour. EH
Total	Despite that the kooiker might get a little bit to big these days these F1 can prevent that. Be mindful of the consequences of dwarfism; protruding eyes, small muzzles, deep stops and rounded skulls and too rich coats. Also mind the knee angulation.

Dogs F1 Markiesje s. 16.10.2025 F1-pentue (markiesje) i. Hayo, e. Miltassias Xanti Av Tarja	Critics
R32 HETJAX NOX FORTIS ER13666/26, uros	Tall guy. 8 months. Head between puppy and male. Good skull. Long muzzle. Good eyes. Needs a little filling up under the eyes. Slightly rounded ears. Scissor bite. For age well developed chest and forechest. Little long in loin. A bit stretched. Moves with enough drive and reach for his age.
R33 HETJAX NERO TOSTADOS ER13667/26, uros	Absent
R34 HETJAX UNA NOCHE ER13664/26, narttu	Youngster 8 ,month-old . With square body proportions. Real adolescent. Puppy head with good proportions. Correctly shaped and set ear. A little more power in the muzzle. Teeth are under fore bite. Very young in body and needs time. Open angulations in front and rear. Steep pelvis. Tail just enough in length. Still flat in rib. Good forechest. Tail just reaching the hawk. Fitting bone. Stepping and

	loose puppy movement. Roaches her back in movement and curls her tail over her back.
Total	Totally different in type. Tall size. The head of R34 looks very familiar to the kooiker. Though the tail we do not like to see. Interesting to see the tall size compared to the original breeds.
